

PRELIMINARY OFFERING CIRCULAR APRIL 30, 2020, SUBJECT TO COMPLETION

Atlis Motor Vehicles, Inc.

A Delaware Corporation

Maximum Offering Amount: \$25,000,000

This is our initial public offering (the Offering) of securities of Atlis Motor Vehicles, Inc, a Delaware corporation (Atlis or the Company). We are offering for sale 3,033,981 shares of our Class A Class A common stock, \$.0001 par value per share, at \$8.24 per share (the Shares) on a best efforts basis. This offering will terminate on the earlier of (i) October 31, 2020, subject to extension for up to one hundred-eighty (180) days in the sole discretion of the Company; or (ii) the date on which the Maximum Offering is sold (in either case, the Termination Date). There is no escrow established for this Offering. We will hold closings upon the receipt of investors subscriptions and acceptance of such subscriptions by the Company. If, on the initial closing date, we have sold less than the Maximum Offering, then we may hold one or more additional closings for additional sales, until the earlier of: (i) the sale of the Maximum Offering or (ii) the Termination Date. There is no aggregate minimum requirement for the Offering to become effective, therefore, we reserve the right, subject to applicable securities laws, to begin applying dollar one of the proceeds from the Offering towards our business strategy, development expenses, offering expenses and other uses as more specifically set forth in this offering circular (Offering Circular). We expect to commence the sale of the Shares as of the date on which the offering statement, of which this Offering Circular is a part (the Offering Statement), is qualified by the United States Securities and Exchange Commission (the SEC or the Commission). The offering is made in reliance upon an exemption from registration under the federal securities laws provided by Rule 251 of Regulation A (as promulgated by the SEC in 17 CFR 230.251 et seq. under the Securities Act of 1933, as amended (the Securities Act or the 1933 Act)).

Investing in our Class A common stock involves a high degree of risk. See Risk Factors for a discussion of certain risks that you should consider in connection with an investment in Atlis.

THE U.S. SECURITIES AND EXCHANGE COMMISSION DOES NOT PASS UPON THE MERITS OF OR GIVE ITS APPROVAL TO ANY SECURITIES OFFERED OR THE TERMS OF THE OFFERING, NOR DOES IT PASS UPON THE ACCURACY OR COMPLETENESS OF ANY OFFERING CIRCULAR OR OTHER SOLICITATION MATERIALS. THESE SECURITIES ARE OFFERED PURSUANT TO AN EXEMPTION FROM REGISTRATION WITH THE COMMISSION; HOWEVER, THE COMMISSION HAS NOT MADE AN INDEPENDENT DETERMINATION THAT THE SECURITIES OFFERED ARE EXEMPT FROM REGISTRATION.

Per share of Class A common stock

Price to Public	\$8.24
Sales Commissions (1)	\$1.65
Proceeds to the Company (2)	\$6.59

Maximum Offering

Price to Public	\$25,000,000
Sales Commissions (1)	\$5,000,000.00
Proceeds to the Company (2)	\$20,000,000

GENERALLY, NO SALE MAY BE MADE TO YOU IN THIS OFFERING IF THE AGGREGATE PURCHASE PRICE YOU PAY IS MORE THAN TEN PERCENT (10%) OF THE GREATER OF YOUR ANNUAL INCOME OR YOUR NET WORTH. DIFFERENT RULES APPLY TO ACCREDITED INVESTORS AND NON-NATURAL PERSONS. BEFORE MAKING ANY REPRESENTATION THAT YOUR INVESTMENT DOES NOT EXCEED APPLICABLE THRESHOLDS, WE ENCOURAGE YOU TO REVIEW RULE 251(D)(2)(I)(C) OF REGULATION A. FOR GENERAL INFORMATION ON INVESTING, WE ENCOURAGE YOU TO REFER TO WWW.INVESTOR.GOV.

(1) Includes up to a maximum of five percent (5%) of the gross proceeds of this Offering for sales commissions, provided that at this time the Company has not determined if it will require these services or such selected service providers. The Company reserves the right to engage one or more FINRA-member broker-dealers or placement agents in its discretion.

(2) Does not include expenses of the Offering, including but not limited to, fees and expenses for marketing and advertising of the Offering, media expenses, fees for administrative,

accounting, audit and legal services, FINRA filing fees, fees for EDGAR document conversion and filing, and website posting fees, estimated to be as much as \$1,000,000.

THE SECURITIES UNDERLYING THIS OFFERING STATEMENT MAY NOT BE SOLD UNTIL QUALIFIED BY THE SECURITIES AND EXCHANGE COMMISSION. THIS OFFERING CIRCULAR IS NOT AN OFFER TO SELL, NOR SOLICITING AN OFFER TO BUY, ANY SHARES OF OUR CLASS A COMMON STOCK IN ANY STATE OR OTHER JURISDICTION IN WHICH SUCH SALE IS PROHIBITED.

INVESTMENT IN SMALL BUSINESS INVOLVES A HIGH DEGREE OF RISK, AND INVESTORS SHOULD NOT INVEST ANY FUNDS IN THIS OFFERING UNLESS THEY CAN AFFORD TO LOSE THEIR ENTIRE INVESTMENT. SEE "RISK FACTORS" FOR A DISCUSSION OF CERTAIN RISKS YOU SHOULD CONSIDER BEFORE PURCHASING ANY SHARES IN THIS OFFERING.

AN OFFERING STATEMENT PURSUANT TO REGULATION A RELATING TO THESE SECURITIES HAS BEEN FILED WITH THE U.S. SECURITIES AND EXCHANGE COMMISSION, WHICH WE REFER TO AS THE COMMISSION. INFORMATION CONTAINED IN THIS PRELIMINARY OFFERING CIRCULAR IS SUBJECT TO COMPLETION OR AMENDMENT. THESE SECURITIES MAY NOT BE SOLD NOR MAY OFFERS TO BUY BE ACCEPTED BEFORE THE OFFERING STATEMENT FILED WITH THE COMMISSION IS QUALIFIED. THIS PRELIMINARY OFFERING CIRCULAR SHALL NOT CONSTITUTE AN OFFER TO SELL OR THE SOLICITATION OF AN OFFER TO BUY NOR MAY THERE BE ANY SALES OF THESE SECURITIES IN ANY STATE IN WHICH SUCH OFFER, SOLICITATION OR SALE WOULD BE UNLAWFUL BEFORE REGISTRATION OR QUALIFICATION UNDER THE LAWS OF ANY SUCH STATE. WE MAY ELECT TO SATISFY OUR OBLIGATION TO DELIVER A FINAL OFFERING CIRCULAR BY SENDING YOU A NOTICE WITHIN TWO (2) BUSINESS DAYS AFTER THE COMPLETION OF OUR SALE TO YOU THAT CONTAINS THE URL WHERE THE FINAL OFFERING CIRCULAR OR THE OFFERING STATEMENT IN WHICH SUCH FINAL OFFERING CIRCULAR WAS FILED MAY BE OBTAINED.

THE DATE OF THIS OFFERING CIRCULAR IS APRIL 30, 2020.

We are offering to sell, and seeking offers to buy, our securities only in jurisdictions where such offers and sales are permitted. You should rely only on the information contained in this Offering Circular. We have not authorized anyone to provide you with any information other than the information contained in this Offering Circular. The information contained in this Offering Circular is accurate only as of its date, regardless of the time of its delivery or of any sale or delivery of our securities. Neither the delivery of this Offering Circular nor any sale or delivery of our securities shall, under any circumstances, imply that there has not been a change in our affairs since the date of this Offering Circular. This Offering Circular will be updated and made available for delivery to the

extent required by the federal securities laws.

Unless otherwise indicated, data contained in this Offering Circular concerning the business of the Company are based on information from various public sources. Although we believe that these data are generally reliable, such information is inherently imprecise, and our estimates and expectations based on these data involve a number of assumptions and limitations. As a result, you are cautioned not to give undue weight to such data, estimates or expectations.

In this Offering Circular, unless the context indicates otherwise, references to Atlis Motor Vehicles, Atlis, we, the Company, our, and us refer to the activities of and the assets and liabilities of the business and operations of Atlis Motor Vehicles, Inc.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Some of the statements under Summary, Risk Factors, Management's Discussion and Analysis of Financial Condition and Results of Operations, Our Business and elsewhere in this Offering Circular constitute forward-looking statements. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar matters that are not historical facts. In some cases, you can identify forward-looking statements by terms such as anticipate, believe, could, estimate, expect, intend, may, plan, potential, should, will and would or the negatives of these terms or other comparable terminology.

You should not place undue reliance on forward looking statements. The cautionary statements set forth in this Offering Circular, including in "Risk Factors" and elsewhere, identify important factors which you should consider in evaluating our forward-looking statements. These factors include, among other things:

- Our ability to effectively execute our business plan, including without limitation our ability to fully develop our XP Platform, XT Pickup Truck, subscription model, mass production, and respond to the highly competitive and rapidly evolving marketplace and regulatory environment in which we intend to operate;
- Our ability to manage our research, development, expansion, growth and operating expenses;
- Our ability to evaluate and measure our business, prospects and performance metrics, and our ability to differentiate our business model and products;
- Our ability to compete, directly and indirectly, and succeed in the highly competitive and evolving electric vehicle industry.
- Our ability to respond and adapt to changes in technology and customer behavior; and
- Our ability to protect our intellectual property and to develop, maintain and enhance a strong brand.

Although the forward-looking statements in this Offering Circular are based on our beliefs, assumptions and expectations, taking into account all information currently available to us, we cannot guarantee future transactions, results, performance, achievements or outcomes. No assurance can be made to any investor by anyone that the expectations reflected in our forward-looking statements will be attained, or that deviations from them will not be material and adverse. We undertake no obligation, other than as may be required by law, to re-issue this Offering Circular or otherwise make public statements updating our forward-looking statements.

OFFERING SUMMARY

This summary highlights information contained elsewhere in this Offering Circular, but might not contain all of the information that is important to you. This summary is not complete and does

not contain all the information that you should consider before deciding whether to invest in our Class A common stock. As such, before investing in our Class A common stock, you should read the entire Offering Circular carefully, including the "Risk Factors" section and our historical financial statements and the notes thereto attached as part of this Offering Circular. For purposes of this Offering Circular, unless otherwise indicated or the context otherwise requires, all references herein to Atlis Motor Vehicles, Inc., Atlis, the Company, we, us, and our refer to Atlis Motor Vehicles, Inc., a Delaware corporation. Some of the statements in this Offering Circular are forward-looking statements. See the section entitled Cautionary Statement Regarding Forward-Looking Statements.

The Company

Atlis Motor Vehicles, Inc. was formed as a Delaware corporation on November 9, 2016. Atlis Motor Vehicles Inc is a development and manufacturing company of plug in electric trucks. The Company can be best described as a technology development company providing a Vehicle as a Service platform for electric heavy duty and light duty work vehicles. The company is developing electrified vehicle, infrastructure, and software platforms for work fleets. At the core of Atlis Motor Vehicles' hardware platform is a revolutionary battery technology capable of charging a full-size pickup truck in 15 minutes, and a modular system architecture capable of scaling to meet the specific vehicle or equipment application needs. We want to build a truck with unprecedented capabilities at a reasonable price. We also want to change the customer experience from sales, ordering, financing, and delivery to maintenance and service.

Principal Product and Its Market

Atlis Motor Vehicles has several pillars of product focus for our business. These pillars are:

-Battery technology. Our goal is to offer a superior battery technology solution that offers unparalleled performance in charging as well as inclement weather and output performance, Atlis Motor Vehicles is poised to become a major player in the battery industry.

-XP Platform and connected vehicle technology. As we look to the future of electrification, Atlis Motor Vehicles XP Platform aims to provide a scalable technology solution with a connected cloud, mobile, service, and charging ecosystem that will provide unprecedented workflows and customer experiences moving forward. This platform of technology will be leveraged to develop new vehicle solutions quickly while minimizing costs and time. The XP technology platform will allow Atlis Motor Vehicles to work quickly with strategic partners looking to develop new vehicle solutions for niche and mass-market opportunities while leveraging the vast network of capabilities we look to provide.

-Advanced charging stations. The Atlis Motor Vehicles Advanced Charging Station, or AAC, technology represents the pinnacle of charging infrastructure of the future. The goal is for this technology to boast the highest power solution to enter the market, a 1.5MW charging station, that's as simple to operate as filling up your gas vehicle today or plugging in a Tesla vehicle.

-The XT Pickup truck. The flagship vehicle product offering. The XT Pickup truck aims to represent every key piece of technology Atlis Motor Vehicles is developing and how this technology can be utilized to bring capable, non-compromising vehicle solutions through electrification. The XT Pickup truck is our market entry solution into the world of work, and is just the beginning of a long line of vehicle solutions built on our XP Platform.

How We Will Generate Revenue

Atlis Motor Vehicles is still in the research and development stage and does not currently produce a product for sale. Atlis will soon exit the early stages of product and company development, whereupon it will produce a working prototype. We

expect to finalize the production model and begin producing trucks for delivery and generating sales in calendar year 2021.

Atlis Motor Vehicles has received substantial interest in its product resulting in over \$1.5 billion in sales worth of free product reservations for our XT Pickup Truck. This projection was generated by extrapolating the XT Pickup Truck's predicted average sales price of \$59,968 by the number of electronic reservations made on the Company's website. These reservations are non-deposit and require no down payment or reservation fee. Atlis has foregone the requirement for a refundable deposit in favor of allowing reservation holders to become investors in Atlis Motor Vehicles through our Regulation CF offering.

Atlis Motor Vehicles is actively engaging with potential customers for over \$1 billion in reservations for the XP Platform. Expressed interest for the XP Platform is in relation to conversations currently underway with potential customers who have expressed interest in development of a specialized vehicle using our XP Platform. This expressed interest should not be taken as a guarantee of sale. Customer interest in the XP Platform is currently confidential. Based upon the interest shown in the XP Platform thus far, customers have shown interest in 54,444 XP Platforms at \$27,000/platform for a total of \$1.5B in reservation interest.

Market Industry

Pickup trucks have been the top three best-selling vehicles in the US for the past five years. Altogether, including the new and used truck market, vehicle up-fitter market, and charging opportunity, the total market opportunity for us is north of \$241B, and we have already received over \$1.5B in reservations. Currently there are no electric pickup trucks in the market, and Atlis is focused on winning the electric work truck market. Our proprietary battery technology will allow us to deliver unprecedented range and charge times, and our vertically integrated hardware, software, and infrastructure business model will be the first of its kind.

Target Market Demographics

We're building technology that powers work. Our target customers for the Atlis XT are work vehicle fleet owners, and our target customers for the Atlis XP Platform are work vehicle manufacturers. We're adding value for customers across multiple target industries, including construction, agriculture, and logistics.

The Atlis XT pickup truck will be Atlis Motor Vehicles' flagship product, capable of 500 miles of range, 35,000 lbs. fifth wheel towing capability, and 15 minute charge time from 0-100%. The Atlis XT is the first application of our core product offering, the Atlis XP Platform, our electric vehicle technology platform designed for applications with work vehicles: RVs, box trucks, delivery vehicles, tractors, construction equipment, and beyond. Our modular design allows the Atlis XP Platform to easily accommodate the sizes, shapes, and use cases of a variety of different work vehicles.

Volume targets

We are taking a strategic approach to scale: first we will bring the XP Platform to market to drive revenue as we work toward the launch of the XT pickup truck. We are in talks with multiple companies in construction, agriculture, and logistics industries, and we are working to create a proof of concept for one large logistics company this summer. We will ship them initial trial XP Platforms integrated with their delivery vehicles. For calendar year 2021, our volume targets are: 1000 XP Platforms and 100 XT Trucks. In calendar year 2022 we are targeting production of 4,000 XP Platforms and 1,000 XT Trucks.

Geographic sales territory

Ultimately, Atlis is building a technology platform that will add value across the globe, and our long-term vision includes expansion to the rest of the world. We are manufacturing in the USA, and our initial sales focus is in the USA. We've also had multiple conversations with a Japanese logistics company, and the opportunity is large enough to prioritize sales and

infrastructure in Japan.

Distribution Channels

Our hardware and services will be conducted online via our website. Fleet and consumer customers will be able to purchase the Atlis XP Platform, Atlis XT Pickup Truck, and Atlis advanced charging solutions online.

Our advanced charging infrastructure will require users to be able to purchase electricity at our charging stations. This purchase will be conducted through our cloud-based mobile application and website.

Growth Strategy

Our strategy for growth is to focus on execution. We are completing the design work to deliver our production prototype in the second half of 2020. From there, we will stand up production and begin building product. Once we have started production, we plan to leverage influencer marketing and customer word of mouth to generate additional interest in our products. We will develop a dedicated sales team pursuing larger fleet customers.

Risk Factors

Our business and our ability to execute our business strategy are subject to a number of risks as more fully described in the section titled Risk Factors. These risks include, among others:

- Atlis is a fledgling company without having developed any products in the past
- Uncertainty exists as to whether Atlis will be able to raise sufficient funds to continue developing the XP platform and XT pickup truck
- Future capital raises may dilute current stockholders ownership interests
- Atlis will experience losses for the foreseeable future
- Development timelines are at risk of delays outside of Atlis control
- Competition will be stiff
- Scaling up manufacturing will be a challenge and fraught with potential pitfalls
- Product recall could cripple growth
- Product liability could result in costly litigation
- We may face regulatory challenges
- We may not be able to successfully manage growth
- We may not be successful in developing an effective direct sales force
- Raising capital may be costly
- Atlis stock is not marketable and initial investors should be aware that the investment is speculative
- Lack of diversification could cause you to lose all or some of your investment if initial products fail
- Our executive officer and executive staff will retain most of Atlis voting rights

Corporate Information

Atlis Motor Vehicles, Inc. was incorporated under the laws of the State of Delaware on November 9, 2016. Our Chief Executive Officer, President and Secretary has not been in bankruptcy,

receivership or any similar proceeding. Our principal executive offices are located at 1828 North Higley Road, Mesa, AZ 85205. Our website address is www.atlismotorvehicles.com. Information on our web site is not part of this Offering Circular.

REGULATION A+

We are offering our Class A common stock pursuant to recently adopted rules by the Securities and Exchange Commission mandated under the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. These offering rules are often referred to as Regulation A+. We are relying upon Tier 2 of Regulation A+, which allows us to offer of up to \$50 million in a 12-month period.

In accordance with the requirements of Tier 2 of Regulation A+, we will be required to publicly file annual, semiannual, and current event reports with the Securities and Exchange Commission after the qualification of the offering statement of which this Offering Circular forms a part.

The Offering

Securities Offered:

3,033,981 shares of Class A common stock at \$8.24 per share

Class A common stock Outstanding:

Prior to the offering: 17,151,882 shares

After the offering: 20,185,863 shares

(Assuming the sale of all shares offered)

Use of Proceeds:

If we sell all of the Shares being offered, our net proceeds (after our estimated commissions, if any, but excluding our estimated Offering expenses) will be approximately Twenty Million Dollars (\$20,000,000). We will use these net proceeds for our product research and development, expenses associated with the marketing and advertising of the Offering, working capital and general corporate purposes, and such other purposes described in the Use of Proceeds section of this Offering Circular.

Risk Factors:

Investing in our Class A common stock involves a high degree of risk. See Risk Factors.

No Market:

There is no market for our Class A common stock and there can be no assurance that a market will develop.

RISK FACTORS

An investment in our Class A common stock involves a high degree of risk. You should carefully consider the risks described below, together with all of the other information included in this Offering Circular, before making an investment decision. If any of the following risks actually occurs, our business, financial condition or results of operations could suffer. In that case, the trading price of our shares of Class A common stock could decline and you may lose all or part of your investment. See Cautionary Note Regarding Forward Looking Statements above for a discussion of forward-looking statements and the significance of such statements in the context of this Offering Circular.

RISKS RELATED TO OUR COMPANY

ATLIS IS A FLEDGLING COMPANY

Atlis Motor Vehicles is a relatively new company that was incorporated on November 9th 2016. Atlis has no history, no clients, no revenues. If you are investing in this company, it's because you think the Atlis plug in electric pickup truck is a good idea, that Atlis will be able to successfully market, manufacture and sell its plug in electric pickup truck, and that it will be priced appropriately to sell sufficient units to make

Atlis profitable. We have yet to fully develop or sell any electric vehicles. As of right now, aim to develop an electric truck that has no commercial contemporaries. In the meantime, other companies could develop successful alternatives. We have never turned a profit and there is no assurance that we will ever be profitable.

We also have no history in the automotive industry. Although Atlis has taken significant steps in building brand awareness, Atlis is a new company and currently has experience developing or selling motor vehicles. As such, it is possible that Atlis Motor Vehicles lack of history in the industry may impact our brand, business, financial goals, operation performance, and products.

We should be considered a Development Stage Company, and our operations will be subject to all the risks inherent in the establishment of a new business enterprise, including, but not limited to, hurdles or barriers to the implementation of our business plans. Further, because there is no history of operations there is also no operating history from which to evaluate our executive managements ability to manage our business and operations and achieve our goals or the likely performance of the Company. Prospective investors should also consider the fact that our management team has not previously developed or managed similar companies. No assurances can be given that we will be able to achieve or sustain profitability.

UNCERTAINTY EXISTS AS TO WHETHER OUR BUSINESS WILL HAVE SUFFICIENT FUNDS OVER THE NEXT 12 MONTHS, THEREBY MAKING AN INVESTMENT IN ATLIS SPECULATIVE.

We require additional financing to complete development and marketing of our XP Platform until the vehicle is in production and sufficient revenue can be generated for us to be self-sustaining. Our management projects that in order to effectively bring the products to market, that it will require approximately \$20,000,000.00 over the next 12 months to cover costs involved in completing the prototype and beginning to develop a supply chain. In the event that we are unable to generate sufficient revenues, and before all of the funds now held by us and obtained by us through this offering are expended, an investment made in Atlis may become worthless.

If we cannot continue to raise further rounds of funding, we cannot succeed. Atlis will require additional rounds of funding to complete development and begin shipments of the Atlis XT pickup truck. If Atlis is unable to secure funding, we will be unable to succeed in our goal of developing the worlds best pickup truck. Atlis will require additional capital infusion to sustain operations. We predict that we will need to raise an additional \$418 million dollars to finalize the prototype, obtain regulatory approvals, scale production, and continue lean production and sales for the following 4 years to our point of predicted profitability. If we are unable to raise adequate financing, we will be unable to sustain operations for a prolonged period of time.

We expect to significantly increase our spending to advance the development of our products and services and launch and commercialize the products for commercial sale. We will require additional capital for the further development and commercialization of our products, as well as to fund our other operating expenses and capital expenditures. We cannot be certain that additional funding will be available on acceptable terms, or at all. If we are unable to raise additional capital in sufficient amounts or on terms acceptable to us, we may have to significantly delay, scale back or discontinue the development or commercialization of one or more of our products and services. We may also seek collaborators for the products at an earlier stage than otherwise would be desirable or on terms that are less favorable than might otherwise be available. Any of these events could significantly harm our business, financial condition and prospects.

The expected gross offering proceeds of a maximum of \$19,000,000 to \$20,000,000 may never be realized. While we believe that such proceeds will capitalize and sustain us to allow for the continued development and implementation of our business plan, if only a fraction of this Offering is sold, or if certain assumptions contained in the business plans prove to be

incorrect, we may have inadequate funds to fully develop our business. Although we believe that the proceeds from this offering will be sufficient to help sustain our development process and business operations, there is no guarantee that we will raise all the funds needed to adequately fund our business plan.

WE NEED TO RAISE ADDITIONAL CAPITAL TO MEET OUR FUTURE BUSINESS REQUIREMENTS AND SUCH CAPITAL RAISING MAY BE COSTLY OR DIFFICULT TO OBTAIN AND COULD DILUTE CURRENT STOCKHOLDERS OWNERSHIP INTERESTS.

We are seeking to raise \$25,000,000 at \$8.24 per share in this offering on a best efforts basis to implement our plan and meet our capital needs for the next 12 months of operations. Additionally, we may sell equity shares in a private placement pursuant to Regulation D. We will use the proceeds from these offerings to complete a working prototype and prepare for production. See the section entitled Use of Proceeds for a description of the manner in which we plan to use proceeds from this offering.

We have relied upon cash from financing activities and in the future, we expect to rely on the proceeds from this Offering, future debt and/or equity financings, and we hope to rely on revenues generated from operations to fund all of the cash requirements of our activities. However, there can be no assurance that we will be able to generate any significant cash from our operating activities in the future. Future financings may not be available on a timely basis, in sufficient amounts or on terms acceptable to us, if at all. Any debt financing or other financing of securities senior to the Class A common stock will likely include financial and other covenants that will restrict our flexibility.

Any failure to comply with these covenants would have a material adverse effect on our business, prospects, financial condition and results of operations because we could lose our existing sources of funding and impair our ability to secure new sources of funding. However, there can be no assurance that the Company will be able to generate any investor interest in its securities. If we do not obtain additional financing, our prototype will never be completed, in which case you would likely lose the entirety of your investment in us.

At this time, we have not secured or identified any additional financing. We do not have any firm commitments or other identified sources of additional capital from third parties or from our officer and director or from other shareholders. There can be no assurance that additional capital will be available to us, or that, if available, it will be on terms satisfactory to us. Any additional financing will involve dilution to our existing shareholders. If we do not obtain additional capital on terms satisfactory to us, or at all, it may cause us to delay, curtail, scale back or forgo some or all of our product development and/or business operations, which could have a material adverse effect on our business and financial results. In such a scenario, investors would be at risk to lose all or a part of any investment in our Company.

WE HAVE LOSSES WHICH WE EXPECT TO CONTINUE INTO THE FUTURE. THERE IS NO ASSURANCE OUR FUTURE OPERATIONS WILL RESULT IN A PROFIT. IF WE CANNOT GENERATE SUFFICIENT REVENUES TO OPERATE PROFITABLY OR WE ARE UNABLE TO RAISE ENOUGH ADDITIONAL FUNDS FOR OPERATIONS, THE SHAREHOLDERS WILL EXPERIENCE A DECREASE IN VALUE AND WE MAY HAVE TO CEASE OPERATIONS.

We are a development-stage technology company that began operating and commenced research and development activities in 2016. As a recently formed development-stage company, we are subject to all of the risks and uncertainties of a new business, including the risk that we may never develop, complete development or market any of our products or services and we may never generate product or services related revenues. Accordingly, we have only a limited history upon which an evaluation of our prospects and future performance can be made. We only have one product currently under development, which will require further development, significant marketing efforts and substantial investment before it and any successors could provide us with any revenue. As a result, if we do not successfully develop, market and commercialize our XT pickup

truck on the XP platform, we will be unable to generate any revenue for many years, if at all. If we are unable to generate revenue, we will not become profitable, and we may be unable to continue our operations. Furthermore, our proposed operations are subject to all business risks associated with new enterprises. The likelihood of our success must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the expansion of a business, operation in a competitive industry, and the continued development of advertising, promotions and a corresponding customer base. There can be no assurances that we will operate profitably.

We expect to incur operating losses in future periods due to the high cost associated with developing an electric vehicle from the ground up. We cannot be sure that we will be successful in generating revenues in the near future and in the event we are unable to generate sufficient revenues or raise additional funds we will analyze all avenues of business opportunities. Management may consider a merger, acquisition, joint venture, strategic alliance, a roll-up, or other business combination to increase business and potentially increase the liquidity of the Company. Such a business combination may ultimately fail, decreasing the liquidity of the Company and shareholder value or cause us to cease operations, and investors would be at risk to lose all or part of their investment in us.

WE DO NOT EXPECT TO GENERATE REVENUE IN THE NEXT 24 MONTHS

We currently do not have a product ready for sale to customers. To date, we have funded our operations from sales of our securities and contributions from our founders. We have not received, and do not expect to receive any revenues from the sale of our vehicles for at least 24 months. Such a time estimate may be adversely affected by a number of factors, including the inability prototype to operate properly, mechanical hurdles, our lack of capital resources to commence an effective marketing campaign, the success of this Offering, competition and other factors, some of which may be beyond our control. We may never succeed in these activities, and may not generate sufficient revenues to continue our business operations or achieve profitability.

COMPETITION MAY CROWD THE MARKET

We face significant barriers in development of a competitive EV in a crowded market space. Atlis Motor Vehicles faces significant technical, resource, and financial barriers in development of a battery electric vehicle intended to compete in a crowded pickup truck space. Incumbents, also known as legacy manufacturers, have substantially deeper pockets, larger pools of resources, and more significant manufacturing experience. Atlis will need to contract with development partners who may have existing relationships with incumbent manufacturers, these relationships may pose a significant risk in our ability to successfully develop this program. The Atlis product is differentiated from all currently announced electric trucks in that it will be a full-size, heavy-duty truck with capabilities that match or exceed internal combustion trucks of the same size. However, we have a lot of work to do before we reach production. There is a chance that other competitors may release similar full-sized electric trucks before we exit the research and development phase. If several competitors release full-sized electric trucks before Atlis, it will be exceedingly difficult to penetrate the market.

There are several potential competitors who are better positioned than we are to take the majority of the market. We will compete with larger, established Automotive Manufacturers who currently have products on the markets and/or various respective product development programs. They have much better financial means and marketing/sales and human resources than us. They may succeed in developing and marketing competing equivalent products earlier than us, or superior products than those developed by us. There can be no assurance that competitors will not render our technology or products obsolete or that the plug in electric pickup truck developed by us will be preferred to any existing or newly developed technologies. It should further be assumed that that competition will intensify. Atlis Motor Vehicles' success depends on our ability to continuously raise funding, keep cost under control, and

properly execute in our delivery of the Atlis Motor Vehicles XT pickup truck, Atlis Motor Vehicles XP truck platform, and Advanced Charging Station.

In order to be competitive, we must have the ability to respond promptly and efficiently to the ever-changing marketplace. We must establish our name as a reliable and constant source for professional conversion and transmission services. Any significant increase in competitors or competitors with better, more efficient services could make it more difficult for us to gain market share or establish and generate revenues. We may not be able to compete effectively on these or other factors.

RELIABLE SUPPLIERS MAY BE HARD TO FIND

As Atlis does not currently manufacture any products, we will be starting from scratch in creating and developing supplier relationships. Currently, most major suppliers have agreements with legacy manufacturers that far exceed the scale and volume at which Atlis will operate. While we intend to make as many components in-house as possible, we will have to rely on third party suppliers to manufacture some of our components and specifications. Without having already developed these relationships, we may encounter challenges in ensuring we receive the quality parts we need at the price and volume required. These supplier challenges may result in unintended delays and/or product inferiority.

SCALING UP MANUFACTURING WILL BE A CHALLENGE

Electric Vehicle Technology is changing rapidly There is significant development and investment into electric vehicle technology being made today. Such rapidly changing technology conditions may adversely affect Atlis Motor Vehicles' ability to continuously remain a market leader, provide superior product performance, and an outstanding customer experience. If we are unable to control the cost of development, cost of manufacturing, and cost of operations, Atlis may be substantially affected. If we are unable to maintain substantially lower cost of manufacturing, developing, design, distributing, and maintaining our vehicles, we may incur significant cost increases which can be material substantial to the operation of our business. We have made, and will continue to make substantial investments into the development of Atlis Motor Vehicles, such investments may have unforeseen costs that we have been unable to accurately predict, which may significantly impact our ability to execute our business as planned. Atlis will face significant costs in development and purchasing of materials required to build the XT pickup truck, XP truck platform, and Advanced Charging Station through external partnerships. These purchases are subject to conditions outside the control of Atlis Motor Vehicles and as such, these conditions may substantially affect our business, product, brand, operational, and financial goals.

Atlis will continuously and diligently work towards obtaining multiple sources of materials and components to mitigate risk in our supply chain. However, it is possible that specific components or solutions required to manufacturer an electric vehicle may be subject to intellectual property, material availability, or expertise owned solely by a single supplier. A condition such as a single source supplier may hinder our ability to secure cost, schedule, and long term viability of Atlis Motor Vehicles XT pickup truck, XP truck platform, or Advanced Charging Station. We may be inherently subjected to conditions which permit only a single source supplier for specific components necessary to develop and manufacture the Atlis Motor Vehicles XT pickup truck, XP truck platform, and Advanced Charging Station, magnifying this risk.

UNFORSEEN FACTORS MAY ADJUST TIMELINES

Any valuation of Atlis at this stage is pure speculation. Atlis Motor Vehicles business success, timeline, and milestones are estimations. Atlis production projections, sales volume, and cost models are only estimates. Atlis produced these valuations based on existing business models of successful and unsuccessful efforts of other companies within the technology and automotive industries. All such projections and timeline estimations may change as Atlis continues in development of a plug in electric vehicle, charging station and manufacturing facilities.

We are currently in the development phase of the Atlis Motor Vehicles XT pickup truck and have not yet started manufacturing and sales. Cost overruns, scheduling delays, and failure to meet product performance goals may be caused by, but not limited to, unidentified technical hurdles, delays in material shipments, and regulatory hurdles. We may experience delays in design and manufacturing of the Atlis XT pickup truck. We may experience significant delays in bringing the Atlis Motor Vehicles XT pickup truck to market due to design considerations, technical challenges, material availability, manufacturing complications, and regulatory considerations. Such delays could materially damage our brand, business, financial goals, operation results, and product.

A PRODUCT RECALL COULD CRIPPLE GROWTH

If the Atlis Motor Vehicles' XT pickup truck, XP truck platform, or Advanced Charging Station are unable to meet performance and quality criteria, we may be required to perform product recalls to address said concerns. A product recall can have substantial cost related to performing such corrective actions.

Although Atlis will perform significant internal testing and qualifications, as well as external qualifications through approved 3rd party vendors against industry standards and regulatory requirements, there will be unperceived conditions which may negatively impact the customer or Company expected performance and safety of our vehicles. As such, Atlis may perform a corrective action such as a recall of products, mandatory repairs of defective components, or litigation settlements which can materially affect our financial goals, operation results, brand, business, and products. If we are unable to provide significant charging stations, our business success may be substantially affected.

A significant portion of our success is our ability to deploy the appropriate number of charging stations, in strategic locations relative to our customers and customer behaviors. If Atlis is unable to deploy charging stations to specified locations, this may negatively affect our brand, business, financial goals, operational results, and product success in the market. As such, to meet said availability requirements, Atlis will require significant capital investments to rapidly deploy said Advanced Charging Stations, as well as development of relationships with third party members who can assist in deployment of said charging stations. If we are unable to address service requirements, we may negatively affect our customer experience. As such, Atlis Motor Vehicles will require service capabilities be established in locations within close proximity to our XT pickup truck and XP truck platform owners. Atlis Motor Vehicles ability to engage with 3rd party operated service stations, as well as our ability to established company operated locations, will be critical to the success of developing a positive customer experience.

PRODUCT LIABILITY

While Atlis will work diligently to meet all company and regulatory safety requirements, there is a chance that a component catastrophically fails. It is possible that through unknown circumstances or conditions out of our control, some person is injured by our product. The risk of product liability claims and adverse publicity can always occur when manufacturing, developing, marketing, and selling a brand new product that was developed from scratch. If a customer or other party were to be injured by an Atlis product, the ensuing litigation costs and reputational damage could be irreparable.

WE MAY FACE REGULATORY CHALLENGES

We are substantially at risk of unfavorable governmental regulations. Motor vehicles are subject to substantial regulation under international, federal, state, local and foreign laws regarding safety, performance, and import regulations. Our vehicles will need to comply with many governmental standards and regulations relating to vehicle safety, fuel economy, emissions control, noise control, and vehicle recycling, among others. Compliance with all of these requirements may delay our production launch, thereby adversely affecting our business and financial condition.

Additionally, there is a chance that some economically advantageous governmental incentives or subsidies will be removed or repealed before our product reaches production. Such changes to the governmental regulatory structure could have an adverse effect on profitability.

IF WE CANNOT CONTINUE TO INNOVATE, OUR REVENUE GROWTH RATE AND PROFITS MAY BE REDUCED

To successfully develop and grow our business, we must develop, distribute and commercialize our products, secure strategic partnerships with various businesses, and bring our products to market on schedule and in a profitable manner, as well as spend time and resources on the development of future products, services and business strategies that are complementary to our initial electric vehicle and business plan. Delays or failures in launch of the XT pickup could hurt our ability to meet our growth objectives, which may affect our financial projections and may impact our stock price. Moreover, if we are unable to continually develop and evolve our business strategy and launch additional products and services in the future, our business will be entirely dependent on the success of the XT Pickup, which could hurt our ability to meet our objectives. We cannot guarantee that the XT pickup will be able to achieve our expansion goals alone. Our ability to expand successfully will depend on a number of factors, many of which are beyond our control.

WE MAY HAVE DIFFICULTY PROTECTING OUR INTELLECTUAL PROPERTY

Our patents and other intellectual property could be unenforceable or ineffective once patent reviews are completed. For any company creating brand new products, it is imperative to protect the proprietary intellectual property to maintain a competitive advantage. There is no doubt that a significant portion of Atlis' current value depends on the strength and imperviousness of these patents. We intend to continue to file additional patent applications and build our intellectual property portfolio as we discover new technologies related to the development of plug in electric vehicles.

We believe that intellectual property will be critical to our success, and that we will rely on trademark, copyright and patent law, trade secret protection and confidentiality and/or license agreements to protect our proprietary rights. If we are not successful in protecting our intellectual property, it could have a material adverse effect on our business, results of operations and financial condition. While we believe that we will be issued trademarks, patents and pending patent applications help to protect our business, there can be no assurance that our operations do not, or will not, infringe valid, enforceable third-party patents of third parties or that competitors will not devise new methods of competing with us that are not covered by our anticipated patent applications. There can also be no assurance that our patent applications will be approved, that any patents issued will adequately protect our intellectual property, or that such patents will not be challenged by third parties or found to be invalid or unenforceable or that our patents will be effective in preventing third parties from utilizing a copycat business model to offer the same service in one or more categories. Moreover, it is intended that we will rely on intellectual property and technology developed or licensed by third parties, and we may not be able to obtain or continue to obtain licenses and technologies from these third parties at all or on reasonable terms. Effective trademark, service mark, copyright and trade secret protection may not be available in every country in which our intended services will be provided. The laws of certain countries do not protect proprietary rights to the same extent as the laws of the U.S. and, therefore, in certain jurisdictions, we may be unable to protect our proprietary technology adequately against unauthorized third party copying or use, which could adversely affect our competitive position. We expect to license in the future, certain proprietary rights, such as trademarks or copyrighted material, to third parties. These licensees may take actions that might diminish the value of our proprietary rights or harm our reputation, even if we have agreements prohibiting such activity. Also to the extent third parties are obligated to indemnify us for breaches of our intellectual property rights, these third parties may be unable to meet these obligations. Any of these events could have a

material adverse effect on our business, results of operations or financial condition.

The U.S. Patent and Trademark Office and various foreign governmental patent agencies require compliance with a number of procedural, documentary, fee payment and other provisions during the patent process. There are situations in which noncompliance can result in abandonment or lapse of a patent or patent application, resulting in partial or complete loss of patent rights in the relevant jurisdiction. In such an event, competitors might be able to enter the market earlier than would otherwise have been the case, which could have a material adverse effect on our business, results of operations and financial condition.

INTELLECTUAL PROPERTY PROTECTION IS COSTLY.

Filing, prosecuting and defending patents related to our products and software throughout the world is prohibitively expensive. Competitors may use our technologies in jurisdictions where we have not obtained patent protection to develop their own products and, further, may export otherwise infringing products to territories where we have patent protection, but where enforcement is not as strong as that in the U.S. These products may compete with our products in jurisdictions where we do not have any issued or licensed patents and our patent claims or other intellectual property rights may not be effective or sufficient to prevent them from so competing. Many companies have encountered significant problems in protecting and defending intellectual property rights in foreign jurisdictions. The legal systems of certain countries, particularly certain developing countries, do not favor the enforcement of patents and other intellectual property protection, particularly those relating to technology, which could make it difficult for us to stop the infringement of our patents or marketing of competing products in violation of our proprietary rights generally. Proceedings to enforce our patent rights in foreign jurisdictions could result in substantial cost and divert our efforts and attention from other aspects of our business.

CONFIDENTIALITY AGREEMENTS MAY NOT ADEQUATELY PREVENT DISCLOSURE OF TRADE SECRETS AND OTHER PROPRIETARY INFORMATION

We anticipate that a substantial amount of our processes and technologies will be protected by trade secret laws. In order to protect these technologies and processes, we intend to rely in part on confidentiality agreements with our employees, licensees, independent contractors and other advisors. These agreements may not effectively prevent disclosure of confidential information, including trade secrets, and may not provide an adequate remedy in the event of unauthorized disclosure of confidential information. In addition, others may independently discover our trade secrets and proprietary information, and in such cases, we could not assert any trade secret rights against such parties. To the extent that our employees, contractors or other third parties with which we do business use intellectual property owned by others in their work for us, disputes may arise as to the rights in related or resulting know-how and inventions. Laws regarding trade secret rights in certain markets in which we operate may afford little or no protection to our trade secrets. The loss of trade secret protection could make it easier for third parties to compete with our products and related future products and services by copying functionality, among other things. In addition, any changes in, or unexpected interpretations of, the trade secret and other intellectual property laws in any country in which we operate may compromise our ability to enforce our trade secret and intellectual property rights. Costly and time-consuming litigation could be necessary to enforce and determine the scope of our proprietary rights, and failure to obtain or maintain trade secret protection could adversely affect our business, revenue, reputation and competitive position.

FAILURE TO COMPLY WITH FEDERAL AND STATE PRIVACY LAWS COULD ADVERSELY AFFECT OUR BUSINESS

A variety of federal and state laws and regulations govern the collection, use, retention, sharing and security of consumer data. The existing privacy-related laws and regulations are evolving and subject to potentially differing interpretations. In addition, various federal, state and foreign legislative and

regulatory bodies may expand current or enact new laws regarding privacy matters. Several internet companies have recently incurred penalties for failing to abide by the representations made in their privacy policies and practices. In addition, several states have adopted legislation that requires businesses to implement and maintain reasonable security procedures and practices to protect sensitive personal information and to provide notice to consumers in the event of a security breach. Any failure, or perceived failure, by us to comply with our posted privacy policies or with any data-related consent orders, Federal Trade Commission requirements or orders or other federal, state or international privacy or consumer protection-related laws, regulations or industry self-regulatory principles could result in claims, proceedings or actions against us by governmental entities or others or other liabilities, which could adversely affect our business. In addition, a failure or perceived failure to comply with industry standards or with our own privacy policies and practices could adversely affect our business. Federal and state governmental authorities continue to evaluate the privacy implications inherent in the use of third-party web cookies for behavioral advertising. The regulation of these cookies and other current online advertising practices could adversely affect our business

WE ARE DEPENDENT UPON OUR CEO FOR HIS SERVICES AND ANY INTERRUPTION IN HIS ABILITY TO PROVIDE HIS SERVICES COULD CAUSE US TO CEASE OPERATIONS.

The loss of the services of our CEO, Mr. Mark Hanchett, could have a material adverse effect on us. We do not maintain any key man life insurance on Mr. Hanchett. The loss of Mr. Hanchett's services could cause investors to lose all or a part of their investment. Our future success will also depend on our ability to attract, retain and motivate other highly skilled employees. Competition for personnel in our industry is intense. We may not be able to retain our key employees or attract, assimilate or retain other highly qualified employees in the future. If we do not succeed in attracting new personnel or retaining and motivating our current personnel, our business will be adversely affected.

WE HAVE NO LONG-TERM EMPLOYMENT AGREEMENTS IN PLACE WITH OUR EXECUTIVE OFFICERS

As of the date of this Offering Circular we only have short-term, interim employment arrangements with our senior executive officers. We are negotiating compensation packages and the terms of long-term formal employment agreements with our executive officers and we anticipate the any such employment agreement entered into with our executive officers will be on terms no less favorable to our executive officers than the terms of their respective interim arrangement. There is a risk that the Company and any one or more of our executive officers will not reach an agreement with respect to their employment agreements, in part because we expect their compensation packages will be comprised of cash compensation, equity compensation (e.g. stock options, warrants or stock grants), as well as standard benefits and other terms customary for executive officers of similar experience and tenure. Although we intend to finalize negotiations with respect to these employment agreements with each of our executive officers in the near future, if we fail to reach mutually satisfactory agreements in this regard, any one or more of such persons may terminate their association with the Company. Additionally, we are also highly dependent on certain consultants and service providers, including our development partners and our marketing and advertising service providers, some of which are affiliates of the Company and our officers and directors. The loss of any one or more of these experienced executives, consultants, service providers and/or development partners would have a material and adverse effect on our Company and our business prospects

WE ARE SIGNIFICANTLY INFLUENCED BY OUR OFFICERS AND DIRECTORS

In the aggregate, ownership of the Company's shares of common stock by management and affiliated parties, assuming the sale of the Maximum Offering, will represent approximately 62.4% of the issued and outstanding shares of common stock. These shareholders, if acting together, will be able to significantly influence all matters requiring approval by shareholders,

including the election of directors and the approval of mergers or other business combinations transactions. Please see Security Ownership of Management & Certain Security Holders below for more information.

Our future performance is dependent on the ability to retain key personnel. The Company's performance is substantially dependent on the performance of senior management. The loss of the services of any of its executive officers or other key employees could have a material adverse effect on the Company's business, results of operations and financial condition.

OUR BUSINESS COULD BE ADVERSELY AFFECTED BY A DOWNTURN IN THE ECONOMY AND/OR MANUFACTURING.

We are dependent upon the continued demand for electric vehicles, making our business susceptible to a downturn in the economy or in manufacturing. For example, a decrease in the number of individuals investing their money in the equity markets could result in a decrease in the number of companies deciding to become or remain public. This downturn could have a material adverse effect on our business, our ability to raise funds, our production, and ultimately our overall financial condition.

OUR BUSINESS WOULD BE ADVERSELY AFFECTED IF WE ARE NOT ABLE TO CREATE AND DEVELOP AN EFFECTIVE DIRECT SALES FORCE.

Because a significant component of our growth strategy relates to increasing our revenues through sales to companies and individuals subject to the SEC disclosure and reporting requirements, our business would be adversely affected if we were unable to develop and maintain an effective sales force to market our products directly to consumers. Further complicating this matter, many states have prohibited direct to consumer vehicle sales. Atlis will need to be effective at converting online interest into hard sales. We currently do not employ any sales staff to sell our products, which could have a material adverse effect on our business, results of operations and financial condition.

WE MAY NOT BE ABLE TO SUCCESSFULLY MANAGE OUR GROWTH.

We could experience growth over a short period of time, which could put a significant strain on our managerial, operational and financial resources. We must implement and constantly improve our certification processes and hire, train and manage qualified personnel to manage such growth. We have limited resources and may be unable to manage our growth. Our business strategy is based on the assumption that our customer base, geographic coverage and service offerings will increase. If this occurs it will place a significant strain on our managerial, operational, and financial resources. If we are unable to manage our growth effectively, our business will be adversely affected. As part of this growth, we may have to implement new operational, manufacturing, and financial systems and procedures and controls to expand, train and manage our employees, especially in the areas of manufacturing and sales. If we fail to develop and maintain our people and processes as we experience our anticipated growth, demand for our products and our revenues could decrease.

WE MAY NOT BE ABLE TO KEEP UP WITH RAPID TECHNOLOGICAL CHANGES

To remain competitive, we must continue to enhance our products and software. The evolving nature of the electric vehicle industry, which is characterized by rapid technological change, frequent new product and service introductions and the emergence of new industry standards and practices, could render our existing systems, software, and services obsolete. Our success will depend, in part, on our ability to develop, innovate, license or acquire leading technologies useful in our business, enhance our existing solutions, develop new solutions and technology that address the increasingly sophisticated and varied needs of our current and prospective customers, and respond to technological advances and emerging industry and regulatory standards and practices in a cost-effective and timely manner. Future advances in technology may not be beneficial to, or compatible with, our business. Furthermore, we may not successfully use new technologies effectively or adapt our proprietary technology and hardware to emerging industry

standards on a timely basis. Our ability to remain technologically competitive may require substantial expenditures and lead time. If we are unable to adapt in a timely manner to changing market conditions or user requirements, our business, financial condition and results of operations could be seriously harmed

IF WE DO NOT SUCCESSFULLY ESTABLISH AND MAINTAIN OUR COMPANY AS A HIGHLY TRUSTED AND RESPECTED NAME FOR ELECTRIC VEHICLES, WE COULD SUSTAIN LOSS OF REVENUES, WHICH COULD SIGNIFICANTLY AFFECT OUR BUSINESS, FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

In order to attract and retain a client base and increase business, we must establish, maintain and strengthen our name and the services we provide. In order to be successful in establishing our reputation, clients must perceive us as a trusted source for quality services. If we are unable to attract and retain clients with our current marketing plans, we may not be able to successfully establish our name and reputation, which could significantly affect our business, financial condition and results of operations.

SMALL PUBLIC COMPANIES ARE INHERENTLY RISKY AND WE MAY BE EXPOSED TO MARKET FACTORS BEYOND OUR CONTROL. IF SUCH EVENTS WERE TO OCCUR IT MAY RESULT IN A LOSS OF YOUR INVESTMENT.

Managing a small public company involves a high degree of risk. Few small public companies ever reach market stability and we will be subject to oversight from governing bodies and regulations that will be costly to meet. Our present officer has limited experience in managing a fully reporting public company, so we may be forced to obtain outside consultants to assist us with meeting these requirements. These outside consultants are expensive and can have a direct impact on our ability to be profitable. This will make an investment in our Company a highly speculative and risky investment.

LIMITATIONS OF DIRECTOR LIABILITY AND DIRECTOR AND OFFICER INDEMNIFICATION

Our Certificate of Incorporation limits the liability of directors to the maximum extent permitted by Delaware law. Delaware law provides that directors of a corporation will not be personally liable for monetary damages for breach of their fiduciary duties as directors, except for liability for any:

- breach of their duty of loyalty to us or our stockholders;
- act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;
- unlawful payments of dividends or unlawful stock repurchases or redemptions as provided in Section 174 of the Delaware General Corporation Law; or
- Transactions for which the directors derived an improper personal benefit.

These limitations of liability do not apply to liabilities arising under the federal or state securities laws and do not affect the availability of equitable remedies such as injunctive relief or rescission. Our corporate bylaws (Bylaws) provide that we will indemnify our directors, officers and employees to the fullest extent permitted by law. Our Bylaws also provide that we are obligated to advance expenses incurred by a director or officer in advance of the final disposition of any action or proceeding. We believe that these Bylaw provisions are necessary to attract and retain qualified persons as directors and officers. The limitation of liability in our Certificate of Incorporation and Bylaws may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duties. They may also reduce the likelihood of derivative litigation against directors and officers, even though an action, if successful, might provide a benefit to us and our stockholders. Our results of operations and financial condition may be harmed to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions.

RISKS OF BORROWING

As of the date of this Offering Circular, we have incurred certain debt obligations in the ordinary course of our business. While we don't intend to incur any additional debt from the equity commitments provided in this Offering, should we obtain secure bank debt in the future, possible risks could arise. If we incur additional indebtedness, a portion of our future revenues will have to be dedicated to the payment of principal and interest on such indebtedness. Typical loan agreements also might contain restrictive covenants, which may impair our operating flexibility. Such loan agreements would also provide for default under certain circumstances, such as failure to meet certain financial covenants. A default under a loan agreement could result in the loan becoming immediately due and payable and, if unpaid, a judgment in favor of such lender which would be senior to our rights. A judgment creditor would have the right to foreclose on any of our assets resulting in a material adverse effect on our business, ability to generate revenue, operating results or financial condition.

UNANTICIPATED OBSTACLES

Our business plan may change significantly. Many of our potential business endeavors are capital intensive and may be subject to statutory or regulatory requirements. Our Board of Directors believes that the chosen activities and strategies are achievable in light of current economic and legal conditions with the skills, background, and knowledge of our principals and advisors. Our Board of Directors reserve the right to make significant modifications to our stated strategies depending on future events.

RISKS OF OPERATIONS

Our future operating results may be volatile, difficult to predict and may fluctuate significantly in the future due to a variety of factors, many of which may be outside of our control. Due to the nature of our target market, we may be unable to accurately forecast our future revenues and operating results. Furthermore, our failure to generate revenues would prevent us from achieving and maintaining profitability. There are no assurances that we can generate significant revenue or achieve profitability. We anticipate having a sizeable amount of fixed expenses, and we expect to incur losses due to the execution of our business strategy, continued development efforts and related expenses. As a result, we will need to generate significant revenues while containing costs and operating expenses if we are to achieve profitability. We cannot be certain that we will ever achieve sufficient revenue levels to achieve profitability.

WE WILL INCUR INCREASED COSTS AS A RESULT OF BECOMING A PUBLIC COMPANY.

We have plans to become a publicly traded company in the U.S. As a public company, we will incur significant legal, accounting and other expenses that we did not incur as a private company. We will incur costs associated with our public company reporting requirements. We also anticipate that we will incur costs associated with recently adopted corporate governance requirements, including requirements under the Sarbanes-Oxley Act of 2002, as well as new rules implemented by the SEC and the National Association of Securities Dealers (the NASD). We expect these rules and regulations to increase our legal and financial compliance costs and to make some activities more time-consuming and costly. We also expect these new rules and regulations may make it more difficult and more expensive for us to obtain director and officer liability insurance, if we can obtain such insurance at all. We may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar liability coverage. As a result, it may be more difficult for us to attract and retain qualified individuals to serve on our board of directors or as executive officers. We are currently evaluating and monitoring developments with respect to these new rules, and we cannot predict or estimate the amount of additional costs we may incur or the timing of such costs.

NO MINIMUM CAPITALIZATION

We do not have a minimum capitalization and we may use the proceeds from this Offering immediately following our acceptance

of the corresponding subscription agreements. It is possible we may only raise a minimum amount of capital, which could leave us with insufficient capital to implement our business plan, potentially resulting in greater operating losses unless we are able to raise the required capital from alternative sources. There is no assurance that alternative capital, if needed, would be available on terms acceptable to us, or at all.

MINIMAL EMPLOYEES AND INFRASTRUCTURE

We currently only have a small number of employees and are in the process of establishing our human resources procedures, policies, processes and registrations, which are not yet complete. However, we expect to hire additional employees upon receipt of the proceeds from this Offering. We also have minimal operational infrastructure and no prior operating history. We intent to rely on our management team, our advisors, third-party consultants, third-party developers, service providers, technology partners, outside attorneys, advisors, accountants, auditors, and other administrators. The loss of services of any of such personnel may have a material adverse effect on our business and operations and there can be no assurance that if any or all of such personnel were to become unavailable, that qualified successors can be found, on acceptable terms.

LIMITATION ON REMEDIES; INDEMNIFICATION

Our Certificate of Incorporation, as amended from time to time, provides that officers, directors, employees and other agents and their affiliates shall only be liable to the Company and its shareholders for losses, judgments, liabilities and expenses that result from the fraud or other breach of fiduciary obligations. Additionally, we intend to enter into corporate indemnification agreements with each of our officers and directors consistent with industry practice. Thus, certain alleged errors or omissions might not be actionable by the Company. Our governing instruments also provide that, under the broadest circumstances allowed under law, we must indemnify its officers, directors, employees and other agents and their affiliates for losses, judgments, liabilities, expenses and amounts paid in settlement of any claims sustained by them in connection with the Company, including liabilities under applicable securities laws.

FORCE MAJEURE

Our business is uniquely susceptible to unforeseen delays or failures that are caused by forces of nature and related circumstances. These factors are outside and beyond our control. The delay or failure to complete the development and testing of our XP Platform or XT Pickup and the commercial release of related services may be due to any act of God, fire, war, terrorism, flood, strike, labor dispute, disaster, transportation or laboratory difficulties or any similar or dissimilar event beyond our control. We will not be held liable to any shareholder in the event of any such failure.

COVID-19 GLOBAL PANDEMIC

Similar to force majeure, our company is susceptible to the effects of the COVID-19 pandemic. As a result of the pandemic, our workforce may have to work remotely for an extended period of time. Being forced to work remotely may cause unforeseen delays in development. In particular, our engineering teams often rely heavily on hands-on collaboration. Extended pandemic concerns will likely result in decreased productivity and efficiency throughout the Company,

Additionally, an extended pandemic may wreak havoc on international automotive supply chains. If the pandemic makes it difficult for us to source components from suppliers, we may be forced to develop and manufacture certain components ourselves, which would likely result in further delays and cost overruns. We will not be held liable to any shareholder in the event of any delays or catastrophic failures proximately caused by the COVID-19 pandemic.

RISKS ASSOCIATED WITH THIS OFFERING

THERE IS NO FIRM COMMITMENT TO PURCHASE THE CLASS A SHARES OF

CLASS A COMMON STOCK BEING OFFERED, AND AS A RESULT INITIAL INVESTORS ASSUME ADDITIONAL RISK.

This is a best effort, no minimum offering of Class A shares of our Class A common stock being conducted solely by certain members of our management. There is no commitment by anyone to purchase any of the Class A shares being offered. We cannot give any assurance that any or all of the Class A shares will be sold. There is no minimum and we will retain any amount of proceeds received from the sale of the Class A shares. Moreover, there is no assurance that our estimate of our liquidity needs is accurate or that new business development or other unforeseen events will not occur, resulting in the need to raise additional funds. As this offering is a best efforts financing, there is no assurance that this financing will be completed or that any future financing will be affected. Initial investors assume additional risk on whether the offering will be fully subscribed and how the Company will utilize the proceeds.

THE SECURITIES BEING OFFERED ARE RESTRICTED CLASS A SHARES OF OUR CLASS A COMMON STOCK AND AN INVESTMENT IN OUR CLASS A COMMON STOCK WILL BE ILLIQUID.

We are offering Class A shares of our Class A common stock pursuant to an exemption from registration under the Securities Act which imposes substantial restrictions on the transfer of such securities. All certificates which evidence the Class A shares will be inscribed with a printed legend which clearly describes the applicable restrictions on transfer or resale by the owner thereof. Accordingly, each investor should be aware of the long-term illiquid nature of his investment. In no event may such securities be sold, pledged, hypothecated, assigned or otherwise transferred unless such securities are registered under the Securities Act and applicable state securities laws or we received an opinion of counsel that an exemption from registration is available with respect thereto. Rule 144, the primary exemption for resales of restricted securities is only available for securities of issuers providing current information to the public. While we will be required to make such information available should we conduct an initial public offering, and assuming such public offering is in fact successfully carried out, we do not currently make such information available precluding reliance on Rule 144. Thus, each investor should be prepared to bear the risk of such investment for an indefinite period of time. See the sections entitled Description of Securities and Placement of the Offering.

THERE IS CURRENTLY NO MARKET FOR OUR CLASS A COMMON STOCK, AND WE DO NOT EXPECT THAT A MARKET WILL DEVELOP IN THE FORESEEABLE FUTURE MAKING AN INVESTMENT IN OUR CLASS A COMMON STOCK ILLIQUID.

Prior to this Offering, there has been no public market for our Class A common stock. We cannot predict the extent to which an active market for our Class A common stock will develop or be sustained after this Offering, or how the development of such a market might affect the market price of our Class A common stock. The initial offering price of our Class A common stock in this offering is based on a number of factors, including market conditions in effect at the time of the offering, and it may not be in any way indicative of the price at which our shares will trade following the completion of this offering.

We anticipate that we will apply for quoting of our Class A common stock on the OTC Markets or an approved secondary marketplace upon the qualification of the offering statement of which this Offering Circular forms a part. However, there can no assurance that our Class A common stock shares will be quoted. If no active trading market for our Class A common stock develops or is sustained following this Offering, you may be unable to sell your shares when you wish to sell them or at a price that you consider attractive or satisfactory. The lack of an active market may also adversely affect our ability to raise capital by selling securities in the future, or impair our ability to license or acquire other product candidates, businesses or technologies using our shares as consideration.

Investors may not be able to resell their shares at or above the initial offering price. We do not expect that a market for our

stock will develop at any time in the foreseeable future. The lack of a market may impair the ability to sell Class A shares at the time investors wish to sell them or at a price considered to be reasonable. As such, Atlis investors should not expect to have the ability to liquidate their positions in Atlis any time in the near future.

EVEN IF A MARKET DEVELOPS FOR OUR CLASS A SHARES, OUR CLASS A SHARES MAY BE THINLY TRADED WITH WIDE SHARE PRICE FLUCTUATIONS, LOW SHARE PRICES AND MINIMAL LIQUIDITY. WE MAY UTILIZE AN ALTERNATIVE TRADING SYSTEM.

If a market for our Class A shares develops, the share price may be volatile with wide fluctuations in response to several factors, including:

- Potential investors anticipated feeling regarding our results of operations;
- Increased competition;
- Our ability or inability to generate future revenues; and
- Market perception of the future of development of electric vehicles.

Our Class A common stock may not be freely quoted for trading on any stock exchange or through any other traditional trading platform. Our common stock may be issued, available for purchase and may be traded exclusively on a specific trading system that is registered with the SEC as an alternative trading system (an ATS). We do not currently have any plans to trade our common stock on a specific ATS. Any disruption to the operations of an ATS or a broker-dealer's customer interface with an ATS would materially disrupt trading in, or potentially result in a complete halt in the trading of, our common stock. Because our common stock may be traded exclusively on a closed trading system, it is a possibility that there will be a limited number of holders of our common stock. In addition, an ATS is likely to experience limited trading volume with a relatively small number of securities trading on the ATS platform as compared to securities trading on traditional securities exchanges or trading platforms. As a result, this novel trading system may have limited liquidity, resulting in a lower or higher price or greater volatility than would be the case with greater liquidity. You may not be able to resell your common stock on a timely basis or at all.

While we understand that many ATS platforms have adopted policies and procedures such that security holders are not free to manipulate the trading price of securities contrary to applicable law, and while the risk of market manipulation exists in connection with the trading of any securities, the risk may be greater for our Class A common stock because the ATS we choose may be a closed system that does not have the same breadth of market and liquidity as the national market system. There can be no assurance that the efforts by an ATS to prevent such behavior will be sufficient to prevent such market manipulation.

Unlike the more expansive listing requirements, policies and procedures of the Nasdaq Global Market and other trading platforms, there are no minimum price requirements and limited listing requirements for securities to be traded on an ATS. As a result, trades of our Class A common stock on an ATS may not be at prices that represent the national best bid or offer prices of securities that could be considered similar securities.

WE ARBITRARILY DETERMINED THE OFFERING PRICE AND THERE HAS BEEN NO INDEPENDENT VALUATION OF THE STOCK, WHICH MEANS THAT THE STOCK MAY BE WORTH LESS THAN THE PURCHASE PRICE.

The offering price of the Class A shares of Class A common stock has been arbitrarily determined without independent valuation, based on estimates of the price that purchasers of speculative securities, such as our Class A common stock, will be willing to pay considering our nature and capital structure, the experience of the officers and directors and the market conditions for the sale of equity securities in similar companies. The offering price of the Class A shares bears no relationship to our assets, earnings or book value, or any other objective standard of value and thus the Class A shares may have a value significantly less than the offering price and the shares may never obtain a value equal to or greater than the offering price. See the section entitled Placement of the Offering elsewhere in this

memorandum.

THE MARKET PRICE OF OUR CLASS A CLASS A COMMON STOCK SHARES MAY FLUCTUATE, AND YOU COULD LOSE ALL OR PART OF YOUR INVESTMENT

The offering price for our Class A Class A common stock shares is based on a number of factors. The price of these shares may decline following this Offering. The stock market in general, and the market price of our shares will likely be subject to fluctuation, whether due to, or irrespective of, our operating results, financial condition and prospects. Our financial performance, our industry's overall performance, changing consumer preferences, technologies and advertiser requirements, government regulatory action, tax laws and market conditions in general could have a significant impact on the future market price of our Class A common stock. Some of the other factors that could negatively affect our share price or result in fluctuations in our share price includes:

- actual or anticipated variations in our periodic operating results;
- increases in market interest rates that lead purchasers of our shares to demand a higher yield;
- changes in earnings estimates;
- changes in market valuations of similar companies;
- actions or announcements by our competitors;
- adverse market reaction to any increased indebtedness we may incur in the future;
- additions or departures of key personnel;
- actions by stockholders;
- speculation in the press or investment community; and
- listing our shares on a national securities exchange

YOU WILL INCUR SUBSTANTIAL AND IMMEDIATE DILUTION OF THE PRICE YOU PAY FOR YOUR CLASS A SHARES IN THIS OFFERING.

The offering price of our Class A common stock is substantially higher than the net tangible book value per share of the outstanding Class A common stock issued after this offering. Therefore, if you purchase Class A shares of our Class A common stock in this offering, you will incur substantial immediate dilution in the net tangible book value per share of Class A common stock from the price you pay for such share.

WE DO NOT ANTICIPATE DIVIDENDS TO BE PAID ON OUR CLASS A COMMON STOCK AND INVESTORS MAY LOSE THE ENTIRE AMOUNT OF THEIR INVESTMENT.

A dividend has never been declared or paid in cash on our Class A common stock and we do not anticipate such a declaration or payment for the foreseeable future. We expect to use future earnings, if any, to fund business growth. Therefore, stockholders will not receive any funds absent a sale of their Class A shares. We cannot assure stockholders of a positive return on their investment when they sell their Class A shares nor can we assure that stockholders will not lose the entire amount of their investment. Any payment of dividends on our capital stock will depend on our earnings, financial condition and other business and economic factors affecting us at such time as the board of directors may consider relevant. If we do not pay dividends, our Class A common stock may be less valuable because a return on your investment will only occur if the common stock price appreciates.

OUR LACK OF BUSINESS DIVERSIFICATION COULD CAUSE YOU TO LOSE ALL OR SOME OF YOUR INVESTMENT IF WE ARE UNABLE TO GENERATE REVENUES FROM OUR PRIMARY PRODUCTS.

Our business consists of developing and manufacturing electric vehicles and charging infrastructure. We do not have any other lines of business or other sources of revenue if we are unable

to compete effectively in the marketplace. This lack of business diversification could cause you to lose all or some of your investment if we are unable to generate revenues since we do not expect to have any other lines of business or alternative revenue sources.

SALES OF OUR CLASS A CLASS A COMMON STOCK UNDER RULE 144 COULD REDUCE THE PRICE OF OUR STOCK

In general, persons holding restricted securities, including affiliates, must hold their shares for a period of at least six (6) months, may not sell more than one percent (1%) of the total issued and outstanding shares in any ninety (90) day period, and must resell the shares in an unsolicited brokerage transaction at the market price.

However, Rule 144 will only be available for resale in the ninety (90) days after the Company files its semi-annual reports on Form 1-SA and annual reports on Form 1-K, unless the Company voluntarily files interim quarterly reports on Form 1-U, which the Company has not yet decided to do. The availability for sale of substantial amounts of Class A common stock under Rule 144 could reduce prevailing market prices for our securities.

WE DO NOT HAVE ANY CORPORATE GOVERNANCE COMMITTEES, SO SHAREHOLDERS WILL HAVE TO RELY ON OUR DIRECTORS, NONE OF WHOM ARE INDEPENDENT, TO PERFORM THESE FUNCTIONS

We do not have an audit committee, compensation committee or any form of corporate governance committees comprised of an independent director. The Board performs these functions as a whole and no members of the Board are an independent director. However, until such corporate governance committees and controls are formally established, there is a significant risk that certain members of the Board of Directors, executive management and/or our controlling shareholder could thwart such plans and prevent such committees and controls from being implemented. Thus, there is a potential conflict in that board members who are also part of management will participate in discussions concerning management compensation and audit issues that may affect management decisions.

FAILURE TO MAINTAIN INTERNAL CONTROLS OVER FINANCIAL REPORTING WOULD HAVE AN ADVERSE IMPACT ON US

We are required to establish and maintain appropriate internal controls over financial reporting. Failure to establish those controls, or any failure of those controls once established, could adversely impact our public disclosures regarding our business, financial condition or results of operations. In addition, management's assessment of internal controls over financial reporting may identify weaknesses and conditions that need to be addressed in our internal controls over financial reporting or other matters that may raise concerns for investors. Any actual or perceived weaknesses and conditions that need to be addressed in our internal control over financial reporting, disclosure of management's assessment of our internal controls over financial reporting or disclosure of our public accounting firm's attestation to or report on management's assessment of our internal controls over financial reporting may have an adverse impact on the price of our Class A Class A common stock.

MANAGEMENT HAS ULTIMATE DISCRETION OVER THE ACTUAL USE OF PROCEEDS DERIVED FROM THIS OFFERING

The net proceeds from this Offering will be used for the purposes described under Use of Proceeds. However, we reserve the right to use the funds obtained from this Offering for other similar purposes not presently contemplated which we deem to be in the best interests of the Company and our shareholders in order to address changed circumstances or opportunities. As a result of the foregoing, our success will be substantially dependent upon the discretion and judgment of the Board of Directors with respect to application and allocation of the net proceeds of this Offering. Investors who purchase our Class A common stock will be entrusting their funds to our Board of Directors, upon whose judgment and discretion the investors must depend. The failure of our management to apply these funds effectively could harm our business. Pending their use, we may also invest the net proceeds from this offering in a manner that

does not produce income or that loses value.

OUR EXECUTIVE OFFICER AND MAJORITY STOCKHOLDER MAY SIGNIFICANTLY INFLUENCE MATTERS TO BE VOTED ON AND THEIR INTERESTS MAY DIFFER FROM, OR BE ADVERSE TO, THE INTERESTS OF OUR OTHER STOCKHOLDERS.

The Company's executive officer and majority stockholder, Mark Hanchett, controls 84.11 % of our outstanding Class D stock prior to this Offering. As a Majority stockholder, Mark Hanchett controls 84.11% of the voting rights for Atlis Motor Vehicles.

Accordingly, the Company's executive officer and majority stockholder possesses significant influence over the Company on matters submitted to the stockholders for approval, including the election of directors, mergers, consolidations, the sale of all or substantially all of our assets, and also the power to prevent or cause a change in control. This amount of control gives them substantial ability to determine the future of our Company, and as such, they may elect to close the business, change the business plan or make any number of other major business decisions without the approval of shareholders. The interest of our majority stockholders may differ from the interests of our other stockholders and could therefore result in corporate decisions that are adverse to other stockholders.

GENERAL SECURITIES INVESTMENT RISKS

All investments in securities involve the risk of loss of capital. No guarantee or representation is made that an investor will receive a return of its capital. The value of our Class A common stock can be adversely affected by a variety of factors, including development problems, regulatory issues, technical issues, commercial challenges, competition, legislation, government intervention, industry developments and trends, and general business and economic conditions.

MULTIPLE SECURITIES OFFERINGS AND POTENTIAL FOR INTEGRATION OF OUR OFFERINGS

We are currently and will in the future be involved in one or more additional offers of our securities in other unrelated securities offerings. Any two or more securities offerings undertaken by us could be found by the SEC, or a state securities regulator, agency, to be integrated and therefore constitute a single offering of securities, which finding could lead to a disallowance of certain exemptions from registration for the sale of our securities in such other securities offerings. Such a finding could result in disallowance of one or more of our exemptions from registration, which could give rise to various legal actions on behalf of a federal or state regulatory agency and the Company.

THIS OFFERING WAS NOT REVIEWED BY INDEPENDENT PROFESSIONALS

We have not retained any independent professionals to review or comment on this Offering or otherwise protect the interest of the investors hereunder. Although we have retained our own counsel, neither such counsel nor any other counsel has made, on behalf of the investors, any independent examination of any factual matters represented by management herein. Therefore, for purposes of making a decision to purchase our Class A common stock, you should not rely on our counsel with respect to any matters herein described. Prospective investors are strongly urged to rely on the advice of their own legal counsel and advisors in making a determination to purchase our Class A common stock.

WE HAVE NOT UNDERGONE UNDERWRITING DUE DILIGENCE, AND WE CANNOT GUARANTEE THAT WE WILL SELL ANY SPECIFIC NUMBER OF COMMON STOCK SHARES IN THIS OFFERING

There is no commitment by anyone to purchase all or any part of the Class A Shares offered hereby and, consequently, we can give no assurance that all of the Class A shares in this Offering will be sold. Additionally, there is no underwriter for this Offering; therefore, you will not have the benefit of an underwriter's due diligence efforts that would typically include the underwriter being involved in the preparation of this Offering Circular and the pricing of our Class A common stock shares offered hereunder. Therefore, there can be no assurance

that this Offering will be successful or that we will raise enough capital from this Offering to further our development and business activities in a meaningful manner. Finally, prospective investors should be aware that we reserve the right to withdraw, cancel, or modify this Offering at any time without notice, to reject any subscription in whole or in part, or to allot to any prospective purchaser fewer Class A common stock Shares than the number for which he or she subscribed.

INVESTORS IN THIS OFFERING WILL LIKELY EXPERIENCE ADDITIONAL DILUTION

If you purchase our Class A common stock in this Offering, you will experience immediate and substantial dilution because the price you pay will be substantially greater than the net tangible book value per share of the shares you acquire. Since we will require funds in addition to the proceeds of this Offering to conduct our planned business, we will raise such additional funds, to the extent not generated internally from operations, by issuing additional equity and/or debt securities, resulting in further dilution to our existing stockholders (including purchasers of our Class A common stock in this Offering).

WE MAY TERMINATE THIS OFFERING AT ANY TIME

We reserve the right to terminate this Offering at any time, regardless of the number of Class A common stock shares sold. In the event that we terminate this Offering at any time prior to the sale of all of the Class A common stock shares offered hereby, whatever amount of capital that we have raised at that time will have already been utilized by the Company and no funds will be returned to subscribers.

WE MAY BE UNABLE TO MEET OUR CAPITAL REQUIREMENTS

Our capital requirements depend on numerous factors, including but not limited to the rate and success of our research and development efforts, marketing efforts, market acceptance of our products, our ability to establish and maintain our agreements with suppliers, our ability to ramp up production, product demand and other factors. The capital requirements relating to development of our technology and the implementation of our business plan will be significant. We cannot accurately predict the timing and amount of such capital requirements. However, we are dependent on the proceeds of this Offering as well as additional financing that will be required in order to develop our products and fully implement our proposed business plans.

However, in the event that our plans change, our assumptions change or prove to be inaccurate, or if the proceeds of this Offering prove to be insufficient to implement our business plan, we would be required to seek additional financing sooner than currently anticipated. There can be no assurance that any such financing will be available to us on commercially reasonable terms, or at all. Furthermore, any additional equity financing may dilute the equity interests of our existing shareholders (including those purchasing shares pursuant to this Offering), and debt financing, if available, may involve restrictive covenants with respect to dividends, raising future capital and other financial and operational matters. If we are unable to obtain additional financing as and when needed, we may be required to reduce the scope of our operations or our anticipated business plans, which could have a material adverse effect on our business, future operating results and financial condition.

IF WE PURSUE STRATEGIC INVESTMENTS, THEY MAY RESULT IN LOSSES

We may elect periodically to make strategic investments in various public and private companies with businesses or technologies that may complement our business. The market values of these strategic investments may fluctuate due to market conditions and other conditions over which we have no control. Other-than-temporary declines in the market price and valuations of the securities that we hold in other companies would require us to record losses related to our investment. This could result in future charges to our earnings. It is uncertain whether or not we will realize any long-term benefits associated with these strategic investments.

THE MARKET PRICE OF OUR COMMON STOCK MAY FLUCTUATE AND OUR SHAREHOLDERS MAY LOSE ALL OR PART OF THEIR INVESTMENT

If a market for our Class A common stock develops following this Offering, the trading price of our Class A common stock could be subject to wide fluctuations in response to various factors, some of which are beyond our control. The market prices for securities of startup companies have historically been highly volatile, and the market has from time to time experienced significant price and volume fluctuations that are unrelated to the operating performance of particular companies. The market price of our Class A common stock may fluctuate significantly in response to numerous factors, some of which are beyond our control, such as:

- actual or anticipated adverse results or delays in our research and development efforts;
- our failure to commercialize our XP Platform and XT pickup;
- unanticipated serious safety concerns related to the use of our products;
- adverse regulatory decisions;
- legal disputes or other developments relating to proprietary rights, including patents, litigation matters and our ability to obtain patent protection for our intellectual property, government investigations and the results of any proceedings or lawsuits, including patent or stockholder litigation;
- changes in laws or regulations applicable to the electric vehicle industry;
- our dependence on third party suppliers;
- announcements of the introduction of new products by our competitors;
- market conditions in the electric vehicle industry;
- announcements concerning product development results or intellectual property rights of others;
- future issuances of our common stock or other securities;
- the addition or departure of key personnel;
- actual or anticipated variations in quarterly operating results;
- announcements of significant acquisitions, strategic partnerships, joint ventures or capital commitments by us or our competitors;
- our failure to meet or exceed the estimates and projections of the investment community;
- issuances of debt or equity securities;
- trading volume of our common stock;
- sales of our Class A common stock by us or our stockholders in the future;
- overall performance of the equity markets and other factors that may be unrelated to our operating performance or the operating performance of our competitors, including changes in market valuations of similar companies;
- failure to meet or exceed any financial guidance or expectations regarding development milestones that we may provide to the public;
- ineffectiveness of our internal controls;
- general political and economic conditions;
- effects of natural or man-made catastrophic events;
- scarcity of raw materials necessary for battery production;

-other events or factors, many of which are beyond our control.

Further, price and volume fluctuations may result in volatility in the price of our Class A common stock, which could cause a decline in the value of our stock. Price volatility of our Class A common stock might worsen if the trading volume of our shares is low. The realization of any of the above risks or any of a broad range of other risks, including those described in these Risk Factors, could have a dramatic and material adverse impact on the market price of our Class A common stock.

A SALE OF A SUBSTANTIAL NUMBER OF SHARES OF THE CLASS A COMMON STOCK MAY CAUSE THE SHARE PRICES TO DECLINE

If our stockholders sell, or the market perceives that our stockholders intend to sell for various reasons, substantial amounts of our Class A common stock in the public market, including shares issued in connection with the exercise of outstanding options or warrants, the market price of our shares could fall. Sales of a substantial number of shares of our common stock may make it more difficult for us to sell equity or equity-related securities in the future at a time and price that we deem reasonable or appropriate. We may become involved in securities class action litigation that could divert managements attention and harm our business. The stock markets have from time to time experienced significant price and volume fluctuations that have affected the market prices for the common stock of pharmaceutical companies. These broad market fluctuations may cause the market price of our common stock to decline. In the past, securities class action litigation has often been brought against a company following a decline in the market price of a company's securities. We may become involved in this type of litigation in the future. Litigation often is expensive and diverts managements attention and resources, which could adversely affect our business.

OUR QUARTERLY OPERATING RESULTS MAY FLUCTUATE

We expect our operating results to be subject to quarterly fluctuations. Our net loss and other operating results will be affected by numerous factors, including:

- variations in the level of expenses related to our development programs;
- any intellectual property infringement lawsuit in which we may become involved;
- regulatory developments affecting our products and related services; and
- our execution of any collaborative, licensing or similar arrangements, and the timing of payments we may make or receive under these arrangements.

If our quarterly operating results fall below the expectations of investors or securities analysts, the price of our Class A common stock could decline substantially. Furthermore, any quarterly fluctuations in our operating results may, in turn, cause the price of our Class A common stock to fluctuate substantially.

OUR DIRECTORS AND OFFICERS HAVE A SUBSTANTIAL AMOUNT OF VOTING POWER

As of the date of this Offering Circular, our directors, executive officers and principal stockholders beneficially owned, in the aggregate, substantially all of our outstanding voting securities. As a result, if some or all of them acted together, they would have the ability to exert significant influence over the election of our board of directors and the outcome of issues requiring approval by our stockholders. This concentration of ownership may also have the effect of delaying or preventing a change in control of our company that may be favored by other stockholders. This could prevent transactions in which stockholders might otherwise recover a premium for their shares over current market prices.

OUR ABILITY TO UTILIZE LOSS CARRY FORWARDS MAY BE LIMITED

Generally, a change of more than fifty percent (50%) in the ownership of a company's stock, by value, over a three-year period constitutes an ownership change for U.S. federal income tax purposes. An ownership change may limit our ability to use our net operating loss carryforwards attributable to the period prior to the change. As a result, if we earn net taxable income, our ability to use our pre-change net operating loss carryforwards to offset U.S. federal taxable income may become subject to limitations, which could potentially result in increased future tax liability for us.

WE MAY BE REQUIRED TO EXPEND FUNDS TO INDEMNIFY OFFICERS AND DIRECTORS

Our Certificate of Incorporation, as amended, Bylaws and applicable Delaware law provide for the indemnification of our directors, officers, employees, and agents, under certain circumstances, against attorneys fees and other expenses incurred by them in any litigation to which they become a party arising from their association with or activities on our behalf. We will also bear the expenses of such litigation for any of our directors, officers, employees, or agents, upon such persons promise to repay us, therefore if it is ultimately determined that any such person shall not have been entitled to indemnification. This indemnification policy could result in substantial expenditures by us, which we will be unable to recover. Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to directors, officers and controlling persons of our Company pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by us of expenses incurred or paid by a director, officer, or controlling person of our Company in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

THE REQUIREMENTS OF BEING A PUBLIC COMPANY MAY STRAIN OUR RESOURCES AND DIVERT MANagements ATTENTION FROM OPERATIONS

As a public company, we will incur significant legal, accounting and other expenses that we have not incurred as a private company, including costs associated with public company reporting requirements. We also will incur costs associated with the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, the Dodd-Frank Act and related rules implemented or to be implemented by the SEC. The expenses incurred by public companies generally for reporting and corporate governance purposes have been increasing. We expect the rules and regulations associated with being a public company to increase our legal and financial compliance costs and to make some activities more time-consuming and costly, although we are currently unable to estimate these costs with any degree of certainty. These laws and regulations could also make it more difficult or costly for us to obtain certain types of insurance, including director and officer liability insurance, and we may be forced to accept constraints on policy limits and coverage or incur substantially higher costs to obtain coverage. These laws and regulations could also make it more difficult for us to attract and retain qualified persons to serve on our Board, our board committees or as our executive officers and may divert managements attention. Furthermore, if we are unable to satisfy our obligations as a public company, we could be subject to delisting of our common stock, fines, sanctions and other regulatory action and potentially civil litigation.

THE PREPARATION OF OUR FINANCIAL STATEMENTS REQUIRES ESTIMATES, JUDGMENTS, AND ASSUMPTIONS THAT ARE INHERENTLY UNCERTAIN

Financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) typically require the use of estimates, judgments and

assumptions that affect the reported amounts. Often, different estimates, judgments and assumptions could reasonably be used that would have a material effect on such financial statements, and changes in these estimates, judgments and assumptions may occur from period to period over time. These estimates, judgments and assumptions are inherently uncertain and, if our estimates were to prove to be wrong, we would face the risk that charges to income or other financial statement changes or adjustments would be required. Any such charges or changes could harm our business, including our financial condition and results of operations and the price of our securities. See Managements Discussion and Analysis of Financial Condition and Results of Operations for a discussion of the accounting estimates, judgments and assumptions that we believe are the most critical to an understanding of our consolidated financial statements and our business.

UNFAVORABLE SECURITIES INDUSTRY REPORTS COULD HAVE A NEGATIVE EFFECT ON OUR SHARE PRICE

Any trading market for our Class A common stock will be influenced in part by any research reports that securities industry analysts publish about us. We do not currently have and may never obtain research coverage by securities industry analysts. If no securities industry analysts commence coverage of us, the market price and market trading volume of our Class A common stock could be negatively affected. In the event we are covered by analysts, and one or more of such analysts downgrade our securities, or otherwise reports on us unfavorably, or discontinues coverage of us, the market price and market trading volume of our Class A common stock could be negatively affected.

USE OF PROCEEDS

Assuming the sale by us of the Maximum Offering of \$25,000,000 and estimated commissions and offering related expenses of \$5,000,000, the total net proceeds to us would be \$20,000,000 which we currently intend to use as set forth below.

We expect from time to time to evaluate the acquisition of businesses, products and technologies for which a portion of the net proceeds may be used, although we currently are not planning or negotiating any such transactions. As of the date of this Offering Circular, we cannot specify with certainty all of the particular uses for the net proceeds to us from the sale of Class A common stock. Accordingly, we will retain broad discretion over the use of these proceeds, if any. The following table represents managements best estimate of the uses of the net proceeds received from the sale of Class A common stock assuming the sale of, respectively, 100%, 67%, and 33% of the Class A common stock shares offered for sale in this Offering.

% of Offering Sold: 100%

Equipment and Machinery	\$10,800,000
Research and Development (1)	\$6,700,000
Facilities	\$900,000
SG&A Expenses (2)	\$1,400,000
Other Opex	\$200,000
Commissions & Offering Expenses	\$5,000,000
TOTAL OFFERING SALES	\$25,000,000

% of Offering Sold: 67%

Equipment and Machinery	\$7,236,000
Research and Development (1)	\$4,489,000
Facilities	\$603,000
SG&A Expenses (2)	\$938,000
Other Opex	\$134,000
Commissions & Offering Expenses	\$3,350,000
TOTAL OFFERING SALES	\$16,750,000

% of Offering Sold: 33%

Equipment and Machinery	\$3,564,000
Research and Development (1)	\$2,211,000
Facilities	\$297,000
SG&A Expenses (2)	\$462,000
Other Opex	\$66,000
Commissions & Offering Expenses	\$1,650,000
TOTAL OFFERING SALES	\$8,250,000

(1) Once research and development has been completed, we will

need to invest significant funds to acquire or build a factory, purchase machinery and robotics, and equip it for mass production.

(2) Includes up to \$100,000 that will be used to pay salaries and related compensation of executive officers and directors of the Company during 2020-2021, pursuant to employment offer letters and contemplated employment agreements with such persons. See Management Executive Compensation elsewhere in this offering Circular.

The amounts set forth above are estimates, and we cannot be certain that actual costs will not vary from these estimates. Our management has significant flexibility and broad discretion in applying the net proceeds received in this Offering. We cannot assure you that our assumptions, expected costs and expenses and estimates will prove to be accurate or that unforeseen events, problems or delays will not occur that would require us to seek additional debt and/or equity funding, which may not be available on favorable terms, or at all. See Risk Factors.

This expected use of the net proceeds from this Offering represents our intentions based upon our current financial condition, results of operations, business plans and conditions. As of the date of this Offering Circular, we cannot predict with certainty all of the particular uses for the net proceeds to be received upon the closing of this Offering or the amounts that we will actually spend on the uses set forth above. The amounts and timing of our actual expenditures may vary significantly depending on numerous factors. As a result, our management will retain broad discretion over the allocation of the net proceeds from this Offering.

We may also use a portion of the net proceeds for the investment in strategic partnerships and possibly the acquisition of complementary businesses, products or technologies, although we have no present commitments or agreements for any specific acquisitions or investments. Pending our use of the net proceeds from this Offering, we intend to invest the net proceeds in a variety of capital preservation investments, including short-term, investment grade, interest bearing instruments and U.S. government securities.

DILUTION

If you purchase shares in this Offering, your ownership interest in our Class A common stock will be diluted immediately, to the extent of the difference between the price to the public charged for each share in this Offering and the net tangible book value per share of our Class A common stock after this Offering.

On December 31, 2019 there were an aggregate of 16,055,117 shares of Class A and Class D common stock issued and outstanding. In addition, between December 2019 and March 31st, 2020, we received subscriptions for \$888,698 of our Class A common stock shares from 1194 investors in our Regulation CF campaign, that, by their terms, automatically convert into 225,576 shares of our Class A common stock as of the date of this Offering Circular (at a conversion price of \$3.94 per share). In addition we have awarded 817,862 shares to employees and contractors. Accordingly, as at date of this Offering Circular, an aggregate of 17,151,882 shares of our Class A and Class D common stock are issued and outstanding.

Our net tangible book value as of December 31, 2019, was (\$33,022) or (\$0.002) per then-outstanding share of our common stock, based on 16,055,117 outstanding shares of common stock at December 31, 2019. Our net tangible book value as of the date of this Offering Circular was \$61,950.61 or \$0.0036 per share of our common stock, based on 17,151,882 outstanding shares of Class A and Class D common stock as at the date of this Offering Circular. Net tangible book value per share equals the amount of our total tangible assets less total liabilities, divided by the total number of shares of our Class A and Class D common stock outstanding, all as of the date specified.

If the maximum 3,033,981 shares of Class A common stock in this Offering at the initial public offering price of \$8.24 per share, after deducting approximately \$5,000,000 in maximum sales

commissions and other offering expenses payable by us, our pro forma as adjusted net tangible book value would have been approximately \$20,061,950.60 (\$0.994 per share) as at December 31, 2019. This amount represents an immediate increase in pro forma net tangible book value of \$0.994 per share to our existing stockholders at the date of this Offering Circular, and an immediate dilution in pro forma net tangible book value of approximately \$7.24 per share to new investors purchasing shares of Class A common stock in this Offering at a price of \$8.24 per share.

The following table illustrates the per share dilution to new investors discussed above, assuming the sale of, respectively, 100%, 67% and 33% of the shares offered for sale in this offering (after our estimated offering expenses of \$5,000,000, \$3,350,000 and \$1,650,000, respectively)

The following tables set forth, assuming the sale of, respectively, 100%, 67%, and 33% of the shares offered for sale in this offering (after our estimated offering expenses of \$5,000,000, \$3,350,000, and \$1,650,000, respectively), the total number of shares previously sold to existing stockholders, the total consideration paid for the foregoing and the respective percentages applicable to such purchased shares and consideration paid based on an average price of \$0.0001 per share paid by existing stockholders and \$8.24 per share paid by investors in this Offering.

Funding Level	\$25,000,000
Offering Price	\$8.24
Pro forma net tangible book value per Class A common stock share before the Offering	\$0.0036
Increase per common share attributable to investors in this Offering	\$8.2364
Pro forma net tangible book value per Class A common stock share after the Offering	\$0.994
Dilution to investors	\$7.243
Dilution as a percentage of Offering Price	87.89%

Funding Level	\$13,400,000
Offering Price	\$8.24
Pro forma net tangible book value per Class A common stock share before the Offering	\$0.0036
Increase per common share attributable to investors in this Offering	\$8.2364
Pro forma net tangible book value per Class A common stock share after the Offering	\$0.702
Dilution to investors	\$7.535
Dilution as a percentage of Offering Price	91.40%

Funding Level	\$6,600,000
Offering Price	\$8.24
Pro forma net tangible book value per Class A common stock share before the Offering	\$0.0036
Increase per common share attributable to investors in this Offering	\$8.2364

MANAGEMENTS DISCUSSION & ANALYSIS OF FINANCIAL CONDITION & RESULTS OF OPERATIONS

You should read the following discussion and analysis of our financial condition and results of our operations together with our consolidated financial statements and the notes thereto

appearing elsewhere in this Offering Circular. This discussion contains forward-looking statements reflecting our current expectations, whose actual outcomes involve risks and uncertainties. Actual results and the timing of events may differ materially from those stated in or implied by these forward-looking statements due to a number of factors, including those discussed in the sections entitled Risk Factors, Cautionary Statement regarding Forward-Looking Statements and elsewhere in this Offering Circular. Please see the notes to our Financial Statements for information about our Significant Accounting Policies and Recent Accounting Pronouncements

Statement of Operations
Fiscal year 2019

Operating Income	\$2,287
Sales	\$2,275
Gross Profit	\$12
Operating Expense	
Salaries	\$182,176
Legal & Professional	\$89,159
General & Administrative	\$89,021
Research & Development	\$50,428
Advertising	\$34,141
Payroll Taxes	\$14,486
Depreciation	\$4,130
Rent	\$630
Total Operating Expenses	\$464,171
Net Income from Operations	(\$464,159)
Other Income (Expense)	
Interest Expense	(6,219)
Net Income	(470,378)

Revenues. Atlis is a pre-revenue development stage company purposed to design, develop, and produce electric vehicles. The design and research phases are very protracted. No significant revenues have been generated since inception and no revenues are expected in the 2020 fiscal year.

Cost of Goods Sold. The Company remains in developmental stage and, in conjunction with having minimal operational revenue, it has incurred limited Cost of Goods Sold.

Salaries. Salaries in 2019 were \$182,176.

Legal and Professional expenses were \$89,159 in 2019.

General and Administrative expenses totaled \$89,021 in 2019.

Selling and Marketing Expenses. Selling and marketing expenses for fiscal year 2019 were \$34,141.

Product Development. Product development expenses for the fiscal year 2019 were \$50,428.

Net Loss. For the foregoing reasons, our net loss from fiscal year 2019 was \$464,159

Liquidity, Capital Resources and Plan of Operations

Going Concern

Our financial statements appearing elsewhere in this Offering Circular have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. Atlis Motor Vehicles ability to continue as a going concern is contingent upon its ability to raise additional capital as required. In fiscal year 2019, we reported a net loss of \$750,000. Initially, we intend to finance our operations through equity and debt financings.

As of December 31, 2019, our cash and cash equivalents (immediately marketable securities) was \$5,075. Unless we receive additional private financing or we receive a minimum of

\$5,000,000 from the proceeds of this Offering, we will not be able to conduct our planned operations. We estimate that if we receive a minimum of \$5,000,000 of private financing or from the proceeds of this Offering, our existing capital resources will permit us to conduct our planned operations for only approximately 180 days following the date of this Offering Circular. Development of an electric vehicle on this scale is a very cash intensive proposition. Accordingly, our business plan is dependent on our raising sufficient proceeds from this Offering. In addition, we may have to raise additional interim capital from other private sources. There can be no assurance that such needed capital will be available or even if available that it will not be extremely dilutive to the equity of potential investors in this Offering.

Our auditors have indicated that these conditions raise substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

Financings and Securities Offerings

Name of person: Mark Hanchett
Relationship to company: Officer
Nature / amount of interest in the transaction: Mark Hanchett loaned money to Atlis Motor Vehicles to ensure continued operations in the business.
Material terms of transaction: There are no material terms. Loan will be paid back as appropriate to ensure continued operation of the business. As of December 31, 2019, the company owes Mark Hanchett \$10,483.49.

We have made the following issuances of securities within the last three years:

Date of offering: February 28, 2018
Type of security sold: Common Stock
Final dollar amount sold: \$2,000.13

Shares sold: 6,219

The Company presently intends to raise additional capital to fund its research, development and operating expenses prior to the commencement of this Offering under Regulation A+, and plans to conduct a private placement of its Common Stock pursuant to Regulation D and/or Regulation S prior to the qualification of this Offering by the SEC. The Company must raise additional equity or debt financing, both now and in the future following this Offering. However, no assurances can be made that the Company will be successful obtaining additional equity or debt financing, or that ultimately the Company will achieve profitable operations and positive cash flow.

Since inception, our principal sources of operating funds have been proceeds from equity financing including Regulation CF crowdfunding equity financing and including the sale of our Common Stock to initial investors known to management and principal shareholders of the Company. We do not expect that our current cash on hand will fund our existing operations. We will need to raise additional capital in order to execute our business plan and growth goals for at least the next twelve-month period thereafter. If Atlis is unable to raise sufficient additional funds, it will have to execute a slower than planned growth path, reduce overhead and scale back its business plan until sufficient additional capital is raised to support further operational expansion and growth. There can be no assurance that such a plan will be successful.

Current Plan of Operations

Our plan of operations is currently focused on the development of our XP platform and XT pickup. We expect to incur substantial expenditures in the foreseeable future for the extended development and testing of our technology and the potential commercialization of the products. At this time, we cannot reliably estimate the nature, timing or aggregate amount of such costs. Our products will require extensive technical evaluation, potential regulatory review and approval, significant marketing efforts and substantial investment before it or any successors could provide us with any revenue. Further, we intend to continue to build our corporate and operational infrastructure and to build interest in our products with the goal of becoming the market leader in electric trucks.

As noted above, the continuation of our current plan of operations requires us to raise significant additional capital immediately. If we are successful in raising capital through the sale of shares offered for sale in this Offering Circular we believe that the Company will have sufficient cash resources to fund its plan of operations for the next twelve months. If we are unable to do so, our ability to continue as a going concern will be in jeopardy, likely causing us to curtail and possibly cease operations.

We continually evaluate our plan of operations discussed above to determine the manner in which we can most effectively utilize our limited cash resources. The timing of completion of any aspect of our plan of operations is highly dependent upon the availability of cash to implement that aspect of the plan and other factors beyond our control. There is no assurance that we will successfully obtain the required capital or revenues, or, if obtained, that the amounts will be sufficient to fund our ongoing operations. The inability to secure additional capital would have a material adverse effect on us, including the possibility that we would have to sell or forego a portion or all of our assets or cease operations. If we discontinue our operations, we will not have sufficient funds to pay any amounts to our stockholders. If in the future we are not able to demonstrate adequate progress in the development of our product, we will not be able to raise the capital we need to continue our then current business operations and business activities, and we will likely not have sufficient liquidity or cash resources to continue operating.

Because our working capital requirements depend upon numerous

factors there can be no assurance that our current cash resources will be sufficient to fund our operations. At present, we have no committed external sources of capital, and do not expect any significant product revenues for the foreseeable future. Thus, we will require immediate additional financing to fund future operations. There can be no assurance, however, that we will be able to obtain funds on acceptable terms, if at all.

Capital Expenditures

We will require significant capital expenditures to secure the facilities and equipment necessary to complete development and begin producing our products. Due to the size and scope of the operations, it will be necessary to expand facilities and equipment as production operations ramp. This will require exponentially more capital.

Contractual Obligations, Commitments and Contingencies

Atlis Motor Vehicles has signed a 5 year and 3 month lease agreement with Majestic Mesa Partners, to occupy a 42,828 Sq. Ft industrial facility at 1828 North Higley Road, Suite 100, Mesa AZ, commencing on April 1st, 2020. Base rent obligation for Months 1 through 7 is \$14,133, Months 8-12 is \$28,266.48 with subsequent annual increase of 3% for Years 2-5. In addition to Base rent, Atlis Motor Vehicles is responsible for Property Taxes, utilities and maintenance costs related to the property, which are estimated at a monthly rate of \$7,265 for 2020, are commencing from Month 1 of the lease obligation and will be annually adjusted as needed.

Off-Balance Sheet Arrangements

We did not have during the periods presented, and we do not currently have, any off-balance sheet arrangements.

Quantitative and Qualitative Disclosures about Market Risk

In the ordinary course of our business, we are not exposed to market risk of the sort that may arise from changes in interest rates or foreign currency exchange rates, or that may otherwise arise from transactions in derivatives. We do not currently invest in any securities as all capital is being diverted to developing our products.

Contingencies

Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Company, but which will only be resolved when one or more future events occur or fail to occur. Atlis Motor Vehicles Management, in consultation with its legal counsel as appropriate, assesses such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against Atlis or unasserted claims that may result in such proceedings, Atlis, in consultation with legal counsel, evaluates the perceived merits of any legal proceedings or unasserted claims, as well as the perceived merits of the amount of relief sought or expected to be sought therein. If the assessment of a contingency indicates it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Atlis Motor Vehicles financial statements. If the assessment indicates a potentially material loss contingency is not probable, but is reasonably possible, or is probable, but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss, if determinable and material, would be disclosed. Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the guarantees would be disclosed.

Relaxed Ongoing Reporting Requirements

Upon the completion of this Offering, we may elect to become a public reporting company under the Exchange Act. If we elect to do so, we will be required to publicly report on an ongoing basis as an emerging growth company (as defined in the Jumpstart Our Business Startups Act of 2012, which we refer to

as the JOBS Act) under the reporting rules set forth under the Exchange Act. As defined in the JOBS Act, an emerging growth company is defined as a company with less than \$1.0 Billion in revenue during its last fiscal year. An emerging growth company may take advantage of specified reduced reporting and other burdens that are otherwise applicable generally to public companies.

For so long as we remain an emerging growth company, we may take advantage of certain exemptions from various reporting requirements that are applicable to other Exchange Act reporting companies that are not emerging growth companies, including but not limited to:

- not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act;

- taking advantage of extensions of time to comply with certain new or revised financial accounting standards;

- being permitted to comply with reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements; and

- being exempt from the requirement to hold a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

If we are required to publicly report under the Exchange Act as an emerging growth company, we expect to take advantage of these reporting exemptions until we are no longer an emerging growth company. We would remain an emerging growth company for up to five years, though if the market value of our Common Stock that is held by non-affiliates exceeds \$700 million, we would cease to be an emerging growth company.

If we elect not to become a public reporting company under the Exchange Act, we will be required to publicly report on an ongoing basis under the reporting rules set forth in Regulation A for Tier 2 issuers. The ongoing reporting requirements under Regulation A are more relaxed than for emerging growth companies under the Exchange Act. The differences include, but are not limited to, being required to file only annual and semi-annual reports, rather than annual and quarterly reports. Annual reports are due within one hundred twenty (120) calendar days after the end of the issuer's fiscal year, and semi-annual reports are due within ninety (90) calendar days after the end of the first six (6) months of the issuer's fiscal year

OUR BUSINESS

Overview

ATLIS AND INDUSTRY BACKGROUND

Atlis Motor Vehicles is a technology development company providing a Vehicle as a Service platform for electric heavy duty and light duty work vehicles. The company is developing electrified vehicle, infrastructure, and software platforms for work fleets. At the core of Atlis Motor Vehicles hardware platform is a revolutionary battery technology capable of charging a full-size pickup truck in 15 minutes, and a modular system architecture capable of scaling to meet the specific vehicle or equipment application needs. We want to build a truck with unprecedented capabilities at a reasonable price. We also want to change the customer experience from sales, ordering, financing, and delivery to maintenance and service.

Principal Product and its market

Atlis Motor Vehicles has several pillars of product focus for our business. These pillars are:

Battery technology. Our goal is to offer a superior battery technology solution that offers unparalleled performance in charging as well as inclement weather and output performance, Atlis Motor Vehicles is poised to become a major player in the battery industry.

XP Platform and connected vehicle technology. As we look to the future of electrification, Atlis Motor Vehicles XP Platform aims to provide a scalable technology solution with a

connected cloud, mobile, service, and charging ecosystem that will provide unprecedented workflows and customer experiences moving forward. This platform of technology will be leveraged to develop new vehicle solutions quickly while minimizing costs and time. The XP technology platform will allow Atlis Motor Vehicles to work quickly with strategic partners looking to develop new vehicle solutions for niche and mass-market opportunities while leveraging the vast network of capabilities we look to provide.

Advanced charging stations. The Atlis Motor Vehicles Advanced Charging Station, or AAC, technology represents the pinnacle of charging infrastructure of the future. The goal is for this technology to boast the highest power solution to enter the market, a 1.5MW charging station, that's as simple to operate as filling up your gas vehicle today or plugging in a Tesla vehicle.

The XT Pickup truck. The flagship vehicle product offering. The XT Pickup truck aims to represent every key piece of technology Atlis Motor Vehicles is developing and how this technology can be utilized to bring capable, non-compromising vehicle solutions through electrification. The XT Pickup truck is our market entry solution into the world of work, and is just the beginning of a long line of vehicle solutions built on our XP Platform.

How We Will Generate Revenue

Atlis Motor Vehicles does not currently generate sales for our software and hardware services. Atlis Motor Vehicles is in the early stages of the product and company development. Atlis Motor Vehicles expects to begin generating sales by June 2020.

Atlis Motor Vehicles has received over \$1.5 billion in projected reservation interest for our XT Pickup Truck and XP Platform.

This projection is based on a predicted average sales price of Atlis XT Truck of \$59,968 and average sales price of Atlis XP Platform of \$27,000, using electronic reservations made on the Company's website. These reservations are non-deposit and require no down payment to place. Atlis Motor Vehicles has chosen to forego the requirement for a refundable deposit in favor of allowing reservation holders to become a potential investor in Atlis Motor Vehicles through our Regulation CF offering.

Atlis Motor Vehicles is actively engaging in contact development with potential customers for interest for the XP Platform.

Expressed interest for the XP Platform is in relation to conversations currently underway with potential customers who have expressed interest in development of a specialized vehicle using our XP Platform. This expressed interest should not be taken as a guarantee of sale. Customer interest here is anonymous until further public disclosure agreements have been put in place.

Distribution Channels

Our hardware and services will be conducted online via our website. Fleet and consumer customers will be able to purchase the Atlis XP Platform, Atlis XT Pickup Truck, and Atlis advanced charging solutions online.

Our advanced charging infrastructure will require users to be able to purchase electricity at our charging stations. This purchase will be conducted through our cloud-based mobile application and website.

Growth Strategy

Our strategy for growth is to focus on execution. We are completing the design work to deliver our production prototype in the second half of 2020. From there, we will stand up production and begin building product. Once we have started production, we plan to leverage influencer marketing and customer word of mouth to generate additional interest in our products. We will develop a dedicated sales team pursuing larger fleet customers.

Need for Government Approval of Principal Products or Services

As we progress, we may need to obtain government approval for meeting federal transportation safety guidelines.

Our Team Members

Mark Hanchett, Chief Executive Officer - Mark Hanchett has

over ten years of product development experience with 16 successful electromechanical and software product launches. Mark Hanchett brings a passion for solving hard problems in product strategy, design, manufacturing, and business operations, while continuously driving a focus on the best possible customer experience. Mark has served as Founder, Director, and CEO of Atlis Motor Vehicles since inception in 2016. Before starting Atlis Motor Vehicles, Mark was a director at Axon Enterprise Inc from 2012 to 2017, leading teams in the development of innovative hardware and software products for law enforcement. From 2007 to 2012 he served as a senior mechanical engineer and project manager leading cross-functional teams through design and development of innovative conductive electrical weapons at Axon Enterprise inc. He lives in Mesa, Arizona with his wife and two kids. Mark is full time with Atlis.

Annie Pratt, President - Annie is a creative problem solver with a background in product management, design, and business. After studying Product Design at Stanford's design school, she kicked off her career as a Product Manager at Axon Enterprise, launching in-car video solutions for law enforcement. Most recently she served as the Director of Consumer Products at Axon, where she built an independent business unit and doubled both revenue and profit in three years. She has brought a passion for design thinking, user experience, and business strategy to Atlis.

Ross Compton, Lead Vehicle Designer - Ross is an independently contracted award winning designer with a varied background within automotive design. After completing the famous Coventry University Automotive and Transport design course he went straight to Turin, Italy where he was lucky enough to work on the interior to the Willys AW380 show car shown in Bologna 2014. From there Ross has been on many smaller scale projects for new and developing brands, designing everything from supercars to trucks. Perhaps the most notable experience is his work at Bollinger Motors where Ross, alongside the owner, designed the Bollinger B1. His growing collection of works can be found on his own site www.macchinadesign.com.

Derek Duff, Vehicle Dynamics Engineer - Derek's love for the automotive industry started with his first truck since he can remember, he's been researching trucks and imagining ways to design and modify them. After graduating with a degree in Mechanical Engineering from the University of Maine, he moved to Michigan to work with IAV Automotive Engineering at the Chrysler Proving Grounds. A truck guy through-and-through, Derek spends most of his personal time designing and implementing his ideas into truck builds. He is currently designing, testing and validating the suspension and chassis designs for the Atlis Motor Vehicles XT and XP.

Matthew Wilkins, Mechanical Design Engineer - Matt has an experienced background in a wide variety of fields. While pursuing his Mechanical Engineering degree, he competed in the SAE Super mileage competition as a body design team lead. Matt then pursued his creative side and achieved his Masters in Design, New Product Innovation with Arizona State University. He has worked at TASER International as an industrial designer, performed consumer research, prototyping, and UI design at Nautilus Fitness, and has done freelance design. Matt is our swiss-army-knife here at Atlis, able to grind out CAD work on our platform and body for weeks on end, and then switch gears into creative UI, graphics, and video work at a moment's notice. In his spare time, Matt is a competitive cyclist and ultramarathoner.

Liam Burke, Senior Engineer - Liam has a passion for emerging technologies, innovative ideas, and scrappy teams. A mechanical engineer by education, he has worked across a broad range of fields, from manufacturing technologies, to aerospace hardware, to consumer products. Before Atlis, Liam led the consumer engineering team at Axon/Taser, where he planned and developed mechanical, electrical, and software systems. Growing up between Montana and Washington, Liam loves the outdoors and believes a great product should be much like nature: inspiring, durable, sustainable, and simple, yet full of detail.

Abel Saucedo, Senior Electrical Engineer - An Electrification enthusiast, Abel has been involved in the EV scene for over 15 years. Throughout his career, he's designed products across a range of fields, from aerospace hardware, to utility power and consumer products. He also founded his own portable energy company. A home-grown Arizonan, Abel enjoys running, rock climbing and crossfit with his daughter and pups.

Current Roles Being Filled as part of this offering.

VP of Engineering

Atlis Motor Vehicles is seeking and talking with a talented individual with at minimum 10 years of experience in automotive development programs. A preference for electric vehicle development is desired for this position. Startup mindset and a focus on frugal spending will be key. We are primarily seeking individuals who may currently be, or who are currently exiting existing EV startups such as, but not limited to, Faraday Future, Lucid Motors, Tesla, Rivian, and Byton.

VP of Operations

Atlis Motor Vehicles is seeking and talking with talented individuals with a minimum of 10 years of experience in automotive development and manufacturing programs. A key indicator is an individual with automotive startup experience. This individual must possess key talents in supplier development, operational excellence, and lean startup processes. We are primarily seeking individuals who may currently be, or who are currently exiting existing EV startups such as, but not limited to, Faraday Future, Lucid Motors, Tesla, Rivian, and Byton.

Core Engineering and Technical talent.

Atlis Motor Vehicles currently hiring over 65 engineers with automotive experience or significant talents that will allow them to tackle key technical areas of expertise. Our core focus is on battery, drive systems, vehicle dynamics, vehicle structures, and electronic systems.

Product and Program Management

Atlis Motor Vehicles is currently hiring key leadership roles in program management and product management to lead our technical teams in development of hardware, software, and firmware systems. Each program is divided based on technical and product expertise. These individuals will be key factors in managing expectations, schedules, budgets, and team coordination efforts.

Significant Purchases of Plant and Equipment

Mechanical Fabrication Equipment (CNCs, Lathes, Laser Cutters, Lifts, Welders, etc.)	\$1,620,451
Power Tools	\$573
Electrical Equipment (Meters, ESD Tables, Power Supplies, etc.)	\$5,128
Battery Fabrication Equipment (Welders, Testers, Safety Equipment, Storage)	\$65,352
Quality & Validation Test Equipment	\$69,499
Office Equipment (Desks, Conference Rooms, Computers, etc.)	\$100,773
Paint Booth	\$31,000
TOTAL	\$1,892,776

Liquidity & Capital Resources

As of April 20, 2020, Atlis Motor Vehicles has a balance of \$198,744.40 in cash available. As of April 20, 2020 Atlis Motor Vehicles does not have available revolving credit.

PROPERTY

Atlis has occupied 1828 Higley Road, Mesa AZ, for all its operations

LEGAL PROCEEDINGS

No proceedings are pending to which the Company or any of its property is subject, nor to the knowledge of the Company, are any such legal proceedings threatened against the Company.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Name of Entity: Mark Hanchett
Relationship to Company: Officer
Nature/amount of interest in the transaction: Mark Hanchett loaned money to Atlis Motor Vehicles to ensure continued operations in the business.
Material Terms: There are no material terms. Loan will be paid back as appropriate to ensure continued operation of the business. As of January 1, 2020 the company owes Mark Hanchett \$10,483.49.

DESCRIPTION OF COMMON STOCK

We have authorized capital stock consisting of 60,000,000 shares of common stock, \$0.0001 par value per share. Atlis Motor Vehicles has several classes of common stock shares.

Class A
Class A common stock has 1 vote per share.
As of March 31st, 2020. Atlis Motor Vehicles has issued 4,871,129 Class A shares outstanding.

Class B
Class B common stock has no voting power. This Class B classification is reserved for future issues of common stock.

As of March 1st, 2020. Atlis Motor Vehicles has 0 Class B shares outstanding.

Class C

Class C common stock is Non-participating Preferred Class A common stock. This Class C Class A common stock has 1 vote per share. Class C stock receives non-participating preferred liquidation preference. Upon a sale or transfer of Class C stock, Class C stock shall be converted to Class A stock. Holder of Class C stock has the right to a board seat. As of March 1st, 2020. Atlis Motor Vehicles has 0 Class C shares outstanding.

Class D

Class D classification of common stock has 10 votes per share. This Class D classification may be used for future issues of common stock.

As of March 31st, 2020. Atlis Motor Vehicles had 12,225,048

Class D shares outstanding.

PENNY STOCK REGULATION

The SEC has adopted regulations which generally define penny stock to be any equity security that has a market price of less than Five Dollars (\$5.00) per share or an exercise price of less than Five Dollars (\$5.00) per share. Such securities are subject to rules that impose additional sales practice requirements on broker-dealers who sell them. For transactions covered by these rules, the broker-dealer must make a special suitability determination for the purchaser of such securities and have received the purchaser's written consent to the transaction prior to the purchase. Additionally, for any transaction involving a penny stock, unless exempt, the rules require the delivery, prior to the transaction, of a disclosure schedule prepared by the SEC relating to the penny stock market. The broker-dealer also must disclose the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and, if the broker-dealer is the sole market-maker, the broker-dealer must disclose this fact and the broker-dealer's presumed control over the market. Finally, among other requirements, monthly statements must be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks. As our Common Stock immediately following this Offering may be subject to such penny stock rules, purchasers in this Offering will in all likelihood find it more difficult to sell their Common Stock shares in the secondary market.

DIVIDEND POLICY

We have never declared or paid cash dividends. We intend to retain earnings, if any, to support the development of the business and therefore, do not anticipate paying cash dividends for the foreseeable future. Payment of future dividends, if any, will be at the discretion of our board of directors after taking into account various factors, including current financial condition, operating results and current and anticipated cash needs.

OFFERING INCENTIVES

High Dollar Investor Perks

\$500+ Investment - Get \$500 off the purchase of XT Pickup Truck or subscription membership

\$1,500+ Investment - Get \$1500 off the purchase of XT Pickup Truck or subscription membership

Any investor who invests within the first 7 days of the campaign going live will receive a bonus 20% additional shares. Any investor who invests within the first 10 days of the campaign going live will receive a bonus 10% additional shares

PLAN OF DISTRIBUTION

The shares are being offered by us on a best-efforts basis by our officers, directors and employees, with the assistance of independent consultants, and possibly through registered broker-dealers who are members of the Financial Industry Regulatory Authority (FINRA) and finders. As of the date of this Offering Circular, unless otherwise permitted by applicable law, we do not intend to accept subscriptions from investors in this Offering who reside in certain states, unless and until the Company has complied with each such states registration and/or qualification requirements or a FINRA-member broker-dealer has been engaged by the Company to consummate and process sales to investors in such states. We reserve the right to temporarily suspend and/or modify this Offering and Offering Circular in the future, during the Offering Period, in order to take such actions necessary to enable the Company to accept subscriptions in this Offering from investors residing in such states identified above.

There is no aggregate minimum to be raised in order for the Offering to become effective and therefore the Offering will be conducted on a rolling basis. This means we will be entitled to begin applying dollar one of the proceeds from the Offering towards our business strategy, offering expenses, reimbursements, and other uses as more specifically set forth in the Use of Proceeds contained elsewhere in this Offering Circular.

We may pay selling commissions to participating broker-dealers who are members of FINRA for shares sold by them, equal to a percentage of the purchase price of the Class A common stock shares. We may pay finders fees to persons who refer investors to us. We may also pay consulting fees to consultants who assist us with the Offering, based on invoices submitted by them for advisory services rendered. Consulting compensation, finders fees and brokerage commissions may be paid in cash, Class A common stock or warrants to purchase our Class A common stock. We may also issue shares and grant stock options or warrants to purchase our Class A common stock to broker-dealers for sales of shares attributable to them, and to finders and consultants, and reimburse them for due diligence and marketing costs on an accountable or non-accountable basis. We have not entered into selling agreements with any broker-dealers to date, though we may engage a FINRA registered broker-dealer firm for offering administrative services. Participating broker-dealers, if any, and others may be indemnified by us with respect to this offering and the disclosures made in this Offering Circular.

Our Offering will expire on the first to occur of (a) the sale of all 3,033,981 shares of Class A common stock offered hereby, (b) November 30, 2020, subject to extension for up to one hundred-eighty (180) days in the sole discretion of the Company, or (c) when our board of directors elects to terminate the Offering.

ADDITIONAL INFORMATION ABOUT THE OFFERING

Investment Limitations

Generally, no sale may be made to you in this Offering if the aggregate purchase price you pay is more than ten percent (10%) of the greater of your annual income or net worth (please see below on how to calculate your net worth). Different rules apply to accredited investors and non-natural persons. Before making any representation that your investment does not exceed applicable thresholds, we encourage you to review Rule 251(d)(2)(i)(C) of Regulation A. For general information on investing, we encourage you to refer to www.investor.gov.

Because this is a Tier 2, Regulation A offering, most investors must comply with the ten percent (10%) limitation on investment in the Offering. The only investor in this Offering exempt from this limitation is an accredited investor as defined under Rule 501 of Regulation D under the Securities Act (an Accredited Investor). If you meet one of the following tests you should qualify as an Accredited Investor:

(i) You are a natural person who has had individual income in excess of \$200,000 in each of the two (2) most recent years, or joint income with your spouse in excess of \$300,000 in each of these years, and have a reasonable

expectation of reaching the same income level in the current year;

(ii) You are a natural person and your individual net worth, or joint net worth with your spouse, exceeds \$1,000,000 at the time you purchase Shares (please see below on how to calculate your net worth);

(iii) You are an executive officer or general partner of the issuer or a manager or executive officer of the general partner of the issuer;

(iv) You are an organization described in Section 501(c)(3) of the Internal Revenue Code of 1986, as amended, or the Code, a corporation, a Massachusetts or similar business trust or a partnership, not formed for the specific purpose of acquiring the Shares, with total assets in excess of \$5,000,000;

(v) You are a bank or a savings and loan association or other institution as defined in the Securities Act, a broker or dealer registered pursuant to Section 15 of the Exchange Act, an insurance company as defined by the Securities Act, an investment company registered under the Investment Company Act of 1940 (the "Investment Company Act"), or a business development company as defined in that act, any Small Business Investment Company licensed by the Small Business Investment Act of 1958 or a private business development company as defined in the Investment Advisers Act of 1940;

(vi) You are an entity (including an Individual Retirement Account trust) in which each equity owner is an accredited investor;

(vii) You are a trust with total assets in excess of \$5,000,000, your purchase of Shares is directed by a person who either alone or with his purchaser representative(s) (as defined in Regulation D promulgated under the Securities Act) has such knowledge and experience in financial and business matters that he is capable of evaluating the merits and risks of the prospective investment, and you were not formed for the specific purpose of investing in the Shares; or

(viii) You are a plan established and maintained by a state, its political subdivisions, or any agency or instrumentality of a state or its political subdivisions, for the benefit of its employees, if such plan has assets in excess of \$5,000,000.

Offering Period and Expiration Date

This Offering will start on or immediately prior to the date on which the SEC initially qualifies this Offering Statement (the Qualification Date) and will terminate on the Termination Date (the Offering Period).

Procedures for Subscribing

If you decide to subscribe for our Class A common stock shares in this Offering, you should:

1. Electronically receive, review, execute and deliver to us a subscription agreement; and

2. Deliver funds directly by wire or electronic funds transfer via ACH to the Company's bank account designated in the Company's subscription agreement.

Any potential investor will have ample time to review the subscription agreement, along with their counsel, prior to making any final investment decision. We shall only deliver such subscription agreement upon request after a potential investor has had ample opportunity to review this Offering Circular.

Right to Reject Subscriptions

After we receive your complete, executed subscription agreement and the funds required under the subscription agreement have been transferred to our designated account, we have the right to review and accept or reject your subscription in whole or in part, for any reason or for no reason. We will return all monies from rejected subscriptions immediately to you, without interest or deduction.

Acceptance of Subscriptions

Upon our acceptance of a subscription agreement, we will countersign the subscription agreement and issue the shares subscribed at closing. Once you submit the subscription agreement and it is accepted, you may not revoke or change your subscription or request your subscription funds. All accepted subscription agreements are irrevocable.

Under Rule 251 of Regulation A, non-accredited, non-natural investors are subject to the investment limitation and may only invest funds which do not exceed ten percent (10%) of the greater of the purchaser's revenue or net assets (as of the purchaser's most recent fiscal year end). A non-accredited, natural person may only invest funds which do not exceed ten percent (10%) of the greater of the purchaser's annual income or net worth (please see below on how to calculate your net worth).

NOTE: For the purposes of calculating your net worth, it is defined as the difference between total assets and total liabilities. This calculation must exclude the value of your primary residence and may exclude any indebtedness secured by your primary residence (up to an amount equal to the value of your primary residence). In the case of fiduciary accounts, net worth and/or income suitability requirements may be satisfied by the beneficiary of the account or by the fiduciary, if the fiduciary directly or indirectly provides funds for the purchase of the Shares.

In order to purchase our Class A common stock shares and prior to the acceptance of any funds from an investor, an investor will be required to represent, to the Company's satisfaction, that he is either an accredited investor or is in compliance with the ten percent (10%) of net worth or annual income limitation on investment in this Offering.

EXPERTS

The financial statements of the Atlis appearing elsewhere in this Offering Circular have been included herein in reliance upon the report, which includes an explanatory paragraph as to the Company's ability to continue as a going concern, of LLC, an independent certified public accounting firm, appearing elsewhere herein, and upon the authority of that firm as experts in accounting and auditing.

WHERE YOU CAN FIND MORE INFORMATION

We have filed with the SEC a Regulation A Offering Statement on Form 1-A under the Securities Act of 1993, as amended, with respect to the shares of Class A common stock offered hereby. This Offering Circular, which constitutes a part of the Offering Statement, does not contain all of the information set forth in the Offering Statement or the exhibits and schedules filed therewith. For further information about us and the Class A common stock offered hereby, we refer you to the Offering Statement and the exhibits and schedules filed therewith. Statements contained in this Offering Circular regarding the contents of any contract or other document that is filed as an exhibit to the Offering Statement are not necessarily complete, and each such statement is qualified in all respects by reference to the full text of such contract or other document filed as an exhibit to the Offering Statement. Upon the completion of this Offering, we will be required to file periodic reports, proxy statements, and other information with the SEC pursuant to the Securities Exchange Act of 1934. You may read and copy this information at the SEC's Public Reference Room, 100 F Street, N.E., Room 1580, Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet website that contains reports, proxy

statements and other information about issuers, including us, that file electronically with the SEC. The address of this site is www.sec.gov.

FINANCIAL STATEMENTS

ATLIS MOTOR VEHICLES, INC.
Audited Financial Statements For The Years
Ended December 31, 2019 and 2018
Independent Auditor's Report

To Management
Atlis Motor Vehicles, Inc.
Mesa, AZ

We have audited the accompanying balance sheet of Atlis Motor Vehicles, Inc. as of April 21, 2020, and the related statements of income, retained earnings, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Atlis Motor Vehicles, Inc. as of April 21, 2020, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Going Concern
The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note B, certain conditions raise an uncertainty about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note B. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our conclusion is not modified with respect to this manner.

ATLIS MOTOR VEHICLES, INC.
Audit Notes for years ending 2018 and 2019

NOTE A- ORGANIZATION AND NATURE OF ACTIVITIES

Atlis Motor Vehicles, Inc. (the Company) is a corporation organized under the laws of Delaware and domiciled in Arizona. The Company intends to develop and manufacture electric vehicles and other energy sustainable products.

NOTE B- GOING CONCERN MATTERS

The financial statements have been prepared on the going concern basis, which assumes that the Company will continue in operation for the foreseeable future. However, management has identified the following conditions and events that created an uncertainty about the ability of the Company to continue as a going concern. The company sustained net losses of \$470,378 in 2019 and \$595,862 in and had no cash available as of December 31, 2018.

The following describes management's plans that are intended to mitigate the conditions and events that raise substantial doubt about the Company's ability to continue as a going concern. The Company plans to raise additional funds to meet obligations and further operations through a Reg CF campaign. The Company's ability to meet its obligations as they become due is dependent upon the success of management's plans, as described above.

These conditions and events create an uncertainty about the ability of the Company to continue as a going concern through April 21, 2021 (one year after the date that the financial statements are available to be issued). The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

NOTE C- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Significant Risks and Uncertainties

The Company is subject to customary risks and uncertainties

associated with development of new technology including, but not limited to, the need for protection of proprietary technology, dependence on key personnel, costs of services provided by third parties, passing regulatory testing, meeting manufacturing and environmental requirements, the need to obtain additional financing, and limited operating history.

The Company currently has no developed products for commercialization and there can be no assurance that the Company's research and development will be successfully commercialized. Developing and commercializing a product requires significant capital, and based on the current operating plan, the Company expects to continue to incur operating losses as well as cash outflows from operations in the near term.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances, and highly liquid investments with maturities of three months or less when purchased.

Stockholders Equity

During 2018, the company issued 14,782,630 shares of common stock at Par Value \$0.0001.

Fixed Assets

The Company capitalizes assets with an expected useful life of one year or more, and an original purchase price of \$1,000 or more. Depreciation is calculated on a straight-line basis over managements estimate of each assets useful life.

Revenue

Revenue is recognized when control of the promised goods or services is transferred to customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services.

Current revenue is earned by the sale of small merchandise.

Advertising

The Company records advertising expenses in the year incurred.

Accrued Taxes Payable

During 2018 the company accrued \$40,831 in payroll taxes payable.

Rent

The company leases a storage space on a month-to-month basis.

Equity Based Compensation

The Company accounts for stock options issued to employees under ASC 718 (Stock Compensation). Under ASC 718, share-based compensation cost to employees is measured at the grant date, based on the estimated fair value of the award, and is recognized as an item of expense ratably over the employees requisite vesting period. The Company has elected early adoption of ASU 2018-07, which permits measurement of stock options at their intrinsic value, instead of their fair value. An options intrinsic value is defined as the amount by which the fair value of the underlying stock exceeds the exercise price of an option. In certain cases, this means that option compensation granted by the Company may have an intrinsic value of \$0.

The Company measures compensation expense for its non-employee

stock-based compensation under ASC 505 (Equity). The fair value of the option issued or committed to be issued is used to measure the transaction, as this is more reliable than the fair value of the services received. The fair value is measured at the value of the Company's common stock on the date that the commitment for performance by the counterparty has been reached or the counterparty's performance is complete. The fair value of the equity instrument is charged directly to expense and credited to additional paid-in capital.

Income Taxes

The Company applies ASC 740 Income Taxes (ASC 740). Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial statement reported amounts at each period end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The provision for income taxes represents the tax expense for the period, if any and the change during the period in deferred tax assets and liabilities. ASC 740 also provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position is recognized only if it is more likely than not that the position is sustainable upon examination by the relevant taxing authority based on its technical merit.

The Company is subject to tax filing requirements as a corporation in the federal jurisdiction of the United States. The Company sustained net operating losses during fiscal years 2019 and 2018. Net operating losses will be carried forward to reduce taxable income in future years. Due to managements uncertainty as to the timing and valuation of any benefits associated with the net operating loss carryforwards, the Company has elected to recognize an allowance to account for them in the financial statements, but has fully reserved it. Under current law, net operating losses may be carried forward indefinitely.

The Company is subject to franchise and income tax filing requirements in the State of Delaware and Arizona.

Recently Adopted Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board, or FASB, or other standard setting bodies and adopted by the Company as of the specified effective date. Unless otherwise discussed, the Company believes that the impact of recently issued standards that are not yet effective will not have a material impact on its financial position or results of operations upon adoption.

In November 2015, the FASB issued ASU (Accounting Standards Update) 2015-17, Balance Sheet Classification of Deferred Taxes, or ASU 2015-17. The guidance requires that all deferred tax assets and liabilities, along with any related valuation allowance, be classified as noncurrent on the balance sheet. For all entities other than public business entities, the guidance becomes effective for financial statements issued for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Early adoption is permitted for all entities as of the beginning of an interim or annual reporting period. The adoption of ASU 2015-17 had no material impact on the Company's financial statements and related disclosures.

In November 2016, the FASB issued ASU 2016-18, Statement of Cash Flows (Topic 230), Restricted Cash, or ASU 2016-18. The amendments of ASU 2016-18 were issued to address the diversity in classification and presentation of changes in restricted cash and restricted cash equivalents on the statement of cash flows which is currently not addressed under Topic 230. ASU 2016-18 would require an entity to include amounts generally described as restricted cash and restricted cash equivalents with cash and cash equivalents when reconciling the beginning of period and end of period total amounts on the statement of cash flows. This guidance is effective for annual reporting periods, and interim periods within those years, beginning after December 15, 2018

for non-public entities. Early adoption is permitted, and the standard must be applied retrospectively. The adoption of ASU 2016-18 had no material impact on the Company's financial statements and related disclosures.

In May 2014, the FASB issued ASU, 2014-09 Revenue from Contracts with Customers (Topic 606), or ASU 2014-09, and further updated through ASU 2016-12, or ASU 2016-12, which amends the existing accounting standards for revenue recognition. ASU 2014-09 is based on principles that govern the recognition of revenue at an amount to which an entity expects to be entitled to when products are transferred to customers. This guidance is effective for annual reporting periods, and interim periods within those years, beginning December 15, 2018 for non-public entities. The new revenue standard may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of adoption. The adoption of ASU 2014-09 had no material impact on the Company's financial statements and related disclosures.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), or ASU 2016-02, which supersedes the guidance in ASC 840, Leases. The new standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. This guidance is effective for annual reporting periods beginning after December 15, 2019 for non-public entities. The adoption of ASU 2016-02 had no material impact on the Company's financial statements and related disclosures.

In March 2016, the FASB issued ASU 2016-09, Improvements to Employee Share-based Payment Accounting, or ASU 2016-09. ASU 2016-09 simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. Some of the areas of simplification apply only to non-public companies. This guidance was effective on December 31, 2016 for public entities. For entities other than public business entities, the amendments are effective for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Early adoption is permitted for an entity in any interim or annual period for which financial statements have not been issued or made available for issuance. An entity that elects early adoption must adopt all amendments in the same period. The adoption of ASU 2016-09 had no material impact on the Company's financial statements and related disclosures.

In May 2017, the FASB issued ASU 2017-09, Compensation Stock Compensation (Topic 718): Scope of Modification Accounting, or ASU 2017-09, which clarifies when to account for a change to the terms or conditions of a share-based payment award as a modification. Under the new guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award (as equity or liability) changes as a result of the change in terms or conditions. This guidance is effective for annual reporting periods, and interim periods within those years, beginning after December 15, 2017, for both public entities and non-public entities. Early adoption is permitted. The adoption of ASU 2017-09 had no material impact on the Company's financial statements and related disclosures.

NOTE D- EQUITY

Under the Company's original articles of incorporation currently in effect, the Company authorized 17,857,143 shares of \$0.0001 par value Common Stock.

As of December 31, 2019, the number of common shares issued and outstanding was 14,782,630.

NOTE E- DEBT

In 2017, the company issued a note to a related party in exchange for cash for the purpose of funding continuing operations (the Related Party Note Payable). The note does not accrue interest and is payable at a future date to be determined by management. During 2018 and 2017, the Company capitalized no interest related to the note.

In 2018, the company issued a loan payable in exchange for cash for the purpose of funding continuing operations (the Note Payable). The note incurs an annual interest rate of 35.6% on any remaining monthly balance. This interest is paid each month on the remaining loan balance. Minimum monthly payments are equal to \$4,872.

NOTE F- FAIR VALUE MEASUREMENTS

Fair value is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants based on the highest and best use of the asset or liability. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. The Company uses valuation techniques to measure fair value that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized as follows:

Level 1 - Observable inputs, such as quoted prices for identical assets or liabilities in active markets;

Level 2 - Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly, such as quoted prices for similar assets or liabilities, or market-corroborated inputs; and

Level 3 - Unobservable inputs for which there is little or no market data which require the reporting entity to develop its own assumptions about how market participants would price the assets or liabilities.

The valuation techniques that may be used to measure fair value are as follows:

Market approach - Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

Income approach - Uses valuation techniques to convert future amounts to a single present amount based on current market expectations about those future amounts, including present value techniques, option-pricing models, and excess earnings method.

Cost approach - Based on the amount that currently would be required to replace the service capacity of an asset (replacement cost).

NOTE G- CONCENTRATIONS OF RISK

Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents. The Company places its cash and cash equivalents with a limited number of high-quality financial institutions and at times may exceed the amount of insurance provided on such deposits.

NOTE H- SUBSEQUENT EVENTS

Management considered events subsequent to the end of the period but before April 21, 2021, the date that the financial statements were available to be issued.

BROKER-DEALER SERVICES AGREEMENT

This Broker-Dealer Service Agreement ("Agreement") is made and entered into as of March 21, 2020 by and between JumpStart Securities, LLC ("Jumpstart", "us", "our", or "we") and Atlis Motor Vehicles ("Issuer", "you" or "your").

Whereas, Jumpstart is a broker-dealer registered with the Securities and Exchange Commission and a member of the Financial Industry Regulatory Authority ("FINRA") providing capital markets compliance and other services for market participants, including issuers conducting offerings of securities pursuant to exemptions from the registration requirements of the Securities Act of 1933, as amended (the "Securities Act"), including Regulation A, as amended. In servicing this market, Jumpstart has created and maintains proprietary tools and technology, negotiated third-party integrations, and has developed operational services, including limited customer service and compliance, to provide certain back-end tools and specific compliance services to issuers raising capital, and,

Whereas, Issuer is undertaking a capital raising effort pursuant to the exemption from registration (the "Offering"); and,

Whereas Issuer recognizes the benefit of having Jumpstart as a regulated market participant, provide certain support services as described herein for proposed investors in its Offering, and therefore Issuer desires to retain Jumpstart and Jumpstart desires to be retained by Issuer pursuant to the terms and conditions set forth herein.

Now, therefore, in consideration of the mutual promises and covenants contained herein and for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Retention:

a. Issuer hereby retains Jumpstart to provide the services set forth in Section 2 below (the "Services") during the Offering period, commencing on the date hereof and until the earlier of the completion or cancellation of the Offering or the termination of this Agreement as provided in Section 8 hereof.

b. Jumpstart shall serve as the back-office service provider for all potential investors in the Offering as requested by the Issuer. However, Jumpstart will not provide services for any investors who are introduced to the Offering by a registered broker-dealer that entered into a selling agreement with Issuer.

c. Issuer agrees to provide Jumpstart with due diligence information and materials as it reasonably requests and undertakes to update such information and materials throughout the Offering as may be necessary for accuracy.

d. Jumpstart will not advise Issuer or any prospective investor with respect to the Offering, or the terms and structure thereof, which will be determined solely and exclusively by Issuer and its advisers in meeting its capital needs, but will assist in advising concerning marketing and distribution. Issuer will provide Jumpstart with copies of the Offering materials and disclosures, including the investor subscription agreement and the offering circular (collectively, the "Offering Circular"). Under no circumstances shall any communication, whether oral or written, be construed or relied on by Issuer as advice from Jumpstart. Issuer acknowledges that Jumpstart is not acting as a placement agent or underwriter for the Offering and has not and will not at any time provide any securities, financing, legal or accounting advice to Issuer. Issuer represents that it will only rely on the advice of its securities counsel, accountants and/or auditors, and any placement agent or underwriter. Further, Issuer acknowledges and understands that Jumpstart will not have any direct communication with investors other than unsolicited contact that will be redirected to Issuer or Issuer's designees.

2. Services:

a. JumpStart Securities Responsibilities - JumpStart agrees to:

i. Phase one:

A. Advisory services, covering in-depth analysis and assessment activities on the offering, business feasibility, business analysis, marketing approach, management experience with offerings, and certain out-of-pocket expenses for other analysis work/activities, such as legal work, diligence, etc.

ii. Phase two:

A. As part of a fee selection in Section 3c, JumpStart Securities may Market the offering to its previous investors, potential investors, and solicit interest from investors that meet the suitability, sophistication, and purchase criteria for the Offering;

B. Accept investor data from Issuer, generally via any software system used to capture investors, but also via other means as may be established by mutual agreement of the Parties;

C. Review and process information from potential investors, including but not limited to running reasonable background checks for anti-money laundering ("AML"), IRS tax fraud identification and USA PATRIOT Act purposes, and gather and review responses to customer identification information;

D. Verification of accredited investor status of each investor, as applicable in Regulation D, Rule 506c offerings;

E. Review subscription agreements received from prospective investors to confirm they are complete;

F. Contact Issuer and/or Issuer's designees, if needed, to gather additional information or clarification from prospective investors;

G. Advise Issuer as to permitted investment limits for investors pursuant to Regulation D, Rule 506(c);

H. Provide Issuer with prompt notice about inconsistent, incorrect or otherwise flagged (e.g. for underage or AML reasons) subscriptions;

I. Serve as registered agent where required for state blue sky requirements, but in no circumstance will Jumpstart solicit a securities transaction, recommend the Issuer's securities or provide investment advice to any prospective investor;

J. Transmit data to transfer agent as book-entry data for maintaining Issuer's responsibilities for managing investors (investor relationship management, aka "CRM") and for maintaining future good-delivery and recordkeeping;

K. Transmit any checks received from subscribers promptly upon settlement.

b. Issuer Responsibilities - Issuer agrees to:

i. Refer investor data, at its sole and arbitrary discretion, to Jumpstart Securities;

ii. Ensure investors understand they are making a "self-directed" decision, and provide Jumpstart with all information and data required to ascertain whether the investor is eligible to invest in the Offering and the investment threshold, if applicable;

iii. Immediately, but not later than within 24 hours, notify Jumpstart with details of any notices, requests, complaints or actions of or by any regulators, law enforcement, investors, trade associations or legal counsel regarding the Offering;

iv. Comply with state and federal laws and rules; and

v. Not compensate any unregistered person directly or indirectly with any fees, commissions or other consideration based upon the amount, sale of securities or success of an Offering.

c. Marketing of Offering - Issuer represents that it will ensure the marketing and promotional activities it engages in, as related to the Offering, are not materially misleading and in compliance with all SEC rules and regulatory guidance, as well as industry best practices. Issuer will not compensate any person for directly selling securities unless such person is associated with a FINRA member brokerdealer and is appropriately registered with both the SEC and the state(s) in which the investors reside. Issuer may use Jumpstart's name but only to extent set forth in Section 6 of this Agreement.

3. Compensation: For services provided under this Agreement, the terms and payments shall be:

a. Advisory Service Fee. We will pay Jumpstart Securities, LLC a \$10,000 advisory fee for providing initial analysis work in the first phase of services.

b. Administrative Service Fees: During the second phase of services, additionally, we will pay Jumpstart Securities, LLC the following administrative service fee:

- 1) fee per AML check executed, below,
- 2) fee per AML exception, as described in the fees below, and
- 3) accredited investor verification fee.

Administrative service fees will be charged to Issuer at the time of the subscription.

- i. US Individual \$2
- ii. US Entity \$5
- iii. CA/UK Individual \$5
- iv. CA/UK Entity \$75
- v. International Individual \$60
- vi. International Entity \$75
- vii. AML Exceptions \$150/investor owed upon exception
- viii. Investor verification \$45/verification owed upon subscription

c. Broker-Dealer Close Fees: During the second phase of services, a broker-dealer fee will be as selected below. Please select one.

Marketing fee, including broker of record service fee of 3.25% (three and one quarter percent) of the aggregate amount of gross Offering proceeds received, and that are accepted, by the Issuer for use of Jumpstart's marketing services in state notice filings required for the Offering and review of subscription information for accuracy, completeness, and compliance with Regulation D guidelines. Such fee shall not apply for any investor purchasing directly through Issuer wherein such investor is a contact of Issuer, and shall not apply to any investor referred by any other broker-dealer to Issuer.

(selected} Broker of record fee of 1.50% (one and one half percent) of the aggregate amount of gross Offering proceeds received, and that are accepted by the Issuer.

Fees may be reduced on a case-by-case basis, or as required in compliance with FINRA rules. For these purposes, an email from Jumpstart to Issuer will constitute sufficient evidence of an alteration of the fees contained in this Agreement. Any alteration to the fees shall not be interpreted to be, or constitute an amendment or general waiver of other terms of this Agreement unless specifically set forth by Jumpstart in writing.

d. Expenses: Issuer will be responsible for and pay directly (i) fees due to FINRA for filings made with respect to the Offering, if necessary. Pre-approved Travel and Offering expense reimbursements may also be paid to Jumpstart Securities for out-of-pocket expenses (not to exceed \$2,500). If expenses are expected to exceed \$2,500 they will be pre-approved. Receipts would be presented with the requested reimbursements.

e. Payment Terms: Jumpstart will charge Administrative service fees directly to Issuer via ACHdebit and Issuer hereby authorizes such payment. Brokerage service fees are due upon the sale of securities to investors and Issuer agrees and directs that they will be paid from the flow of funds upon the acceptance by the Issuer of any investor, with such acceptance being conditional on the terms of the Offering. Once the Issuer countersigns the investor subscription the investors are accepted. The parties shall have the reasonable right to obtain documentation concerning the details of the payments due.

4. Warranties and Representations: The Issuer and Jumpstart represent and warrant that each has all requisite power and authority to enter into and carry out the terms and provisions of this Agreement and the execution, delivery and performance of this Agreement does not breach or conflict with any agreement, document or instrument to which it is a party or bound, and further:

- a. Jumpstart warrants and represents to the Issuer that:
 - i. It is an SEC registered, FINRA member, SIPC insured firm in good standing and licensed to conduct securities business;

- ii. It is duly registered in states where investors reside;
- iii. Its personnel who provide services to the Issuer are licensed securities representatives and/or principals, as required by regulations for the business being conducted;
- iv. It will not compensate any unregistered person with any fees based upon the amount or success of any investment in the Offering;
- v. It will not solicit or sell investors any other services or investment products; and
- vi. It will not provide any investment advice nor any investment solicitation or recommendations to any investor.

b. Issuer warrants and represents to Jumpstart that:

- i. The offering materials will be complete and correct in all material respects and will not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements therein, in light of the circumstances under which they were made, not misleading.
- ii. It will duly comply with all applicable state and Federal laws, rules and regulations and make all filings as required.

5. Non-Exclusivity, No Underwriting: This Agreement is non-exclusive and shall not be construed to prevent either party from engaging in any business activities.

6. Limited License of Trademarks. During the term of this Agreement, Issuer may request to use Jumpstart's name, logo and trademarks on its website and other marketing materials, but Jumpstart must approve in advance the specific uses intended by Issuer. Generally, the use of Jumpstart's name, logo or trademarks is not used in a manner that implies the Offering is endorsed, recommended, or vetted by Jumpstart, or that Issuer or its agents are authorized to act as a securities agent or a representative of Jumpstart. Furthermore, it is agreed that Jumpstart and Issuer each, in perpetuity, have the option to use the name and logo of one another in disclosing the existence of this business relationship.

7. Independent Contractor: It is agreed that Jumpstart and Issuer are independent contractors for the business and services provided hereunder. Under no circumstances shall this Agreement be deemed to imply or infer that Issuer and Jumpstart have anything other than an arm's length and independent relationship. Both Jumpstart and Issuer shall be individually responsible and liable for their own respective federal, state, local and other taxes or fees, as well as all costs associated with their businesses. Jumpstart is not a fiduciary of the Issuer or its management or board of directors in regard to any of the Services provided under this Agreement.

8. Term and Termination: This Agreement is effective beginning on the date set forth above through the completion or cancellation of the Offering unless terminated by either Party pursuant to this Section 8.

a. Either Party may terminate their participation in this Agreement without cause by giving 10 days' notice via email to the other at any time. Such termination shall only affect future business and not apply to transactions or other business conducted prior to the date of termination.

b. Either Party may terminate their participation in this Agreement for a material breach of this Agreement immediately by giving notice via email to the other at any time. Such termination shall only affect future business and not apply to transactions or other business conducted prior to the date of termination. The non-breaching Party has the sole discretion to grant a period to cure by giving notice via email of the time period for such cure. However, the grant of a cure period does not waive any indemnification or rights of the non-breaching Party to pursue all remedies.

c. In the event of any termination, the responsibilities of each party detailed in Section 2 shall cease.

d. If the agreement is terminated by Issuer, Issuer will reimburse Jumpstart for its actual, documented out-of-pocket expenses up to an aggregate cap of \$10,000 (except if termination is for breach of the Agreement by Jumpstart).

9. Mutual Indemnification: The Parties hereby agree as follows:

- a. To the extent permitted by law, the Issuer will indemnify

Jumpstart and its affiliates, stockholders, directors, officers, employees and controlling persons (within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act) against all losses, claims, damages, expenses and liabilities, as the same are incurred (including the reasonable fees and expenses of counsel), relating to or arising out of its activities hereunder or pursuant to this engagement letter, except to the extent that any losses, claims, damages, expenses or liabilities (or actions in respect thereof) are found in a final judgment (not subject to appeal) by a court of law to have resulted primarily and directly from Jumpstart's willful misconduct or gross negligence in performing the services described herein.

b. Promptly after receipt by Jumpstart of notice of any claim or the commencement of any action or proceeding with respect to which Jumpstart is entitled to indemnity hereunder, Jumpstart will notify the Issuer in writing of such claim or of the commencement of such action or proceeding, and the Issuer will assume the defense of such action or proceeding and will employ counsel reasonably satisfactory to Jumpstart and will pay the fees and expenses of such counsel. Notwithstanding the preceding sentence, Jumpstart will be entitled to employ counsel separate from counsel for the Issuer and from any other party in such action if counsel for Jumpstart reasonably determines that it would be inappropriate under the applicable rules of professional responsibility for the same counsel to represent both the Issuer and Jumpstart. In such event, the reasonable fees and disbursements of no more than one such separate counsel will be paid by the Issuer, in addition to local counsel. The Issuer will have the exclusive right to settle the claim or proceeding provided that the Issuer will not settle any such claim, action or proceeding without the prior written consent of Jumpstart, which will not be unreasonably withheld.

c. The Issuer agrees to notify Jumpstart promptly of the assertion against it or any other person of any claim or the commencement of any action or proceeding relating to a transaction contemplated by this engagement letter.

d. If for any reason the foregoing indemnity is unavailable to Jumpstart or insufficient to hold Jumpstart harmless, then the Issuer shall contribute to the amount paid or payable by Jumpstart as a result of such losses, claims, damages or liabilities in such proportion as is appropriate to reflect not only the relative benefits received by the Issuer on the one hand and Jumpstart on the other, but also the relative fault of the Issuer on the one hand and Jumpstart on the other that resulted in such losses, claims, damages or liabilities, as well as any relevant equitable considerations. The amounts paid or payable by a party in respect of losses, claims, damages and liabilities referred to above shall be deemed to include any legal or other fees and expenses incurred in defending any litigation, proceeding or other action or claim. Notwithstanding the provisions hereof, Jumpstart's share of the liability hereunder shall not be in excess of the amount of fees actually received, or to be received, by Jumpstart under this engagement letter (excluding any amounts received as reimbursement of expenses incurred by Jumpstart).

10. Certain Placement Procedures. On or prior to the date the securities are made available for purchase by subscribers for the purchase and sale of the securities to subscribers in the Offering (the "Closing Date"), Jumpstart shall have obtained from the Company the following:

a. Officers' Certificate signed by the Chairman of the Board or the Chief Executive Officer and the Secretary of the Company (in their capacities as such) to the effect that the Company has performed all covenants and complied with all conditions required by this Agreement to be performed or complied with by the Company, that the representations and warranties of the Company set forth herein and the disclosure provided in the offering materials are true and correct.

b. Secretary's Certificate signed by the Secretary or Assistant Secretary of the Company, respectively, certifying

(i) that the Certificate of Incorporation and Bylaws, as amended of the Company are true and complete, have not been modified and are in full force and effect,

(ii) that the resolutions of the Company's Board of Directors relating to the public offering contemplated by this Agreement are in full force and effect and have not been modified,

(iii) as to the accuracy and completeness of all correspondence between the Company or its counsel and the Commission, and (iv) as

to the incumbency of the officers of the Company. The documents referred to in such certificate shall be attached to such certificate.

c. Legal Opinion of Company Counsel and negative assurance statement with respect to offering customarily provided in public offerings addressed to Jumpstart Securities in form and substance satisfactory to Jumpstart Securities.

11. Confidentiality and Mutual Non-Disclosure: It is acknowledged that in the performance of this Agreement each party may become aware of and/or in possession of confidential, non-public information of the other party. Except as necessary in this Agreement's performance, or as authorized in writing by a Party or by law, the Parties (and their affiliated persons) shall not disclose or make use of such non-public information. Nothing contained herein shall be construed to prohibit the SEC, FINRA, or other government official or entities from obtaining, reviewing, and auditing any information, records, or data. Issuer acknowledges that regulatory record-keeping requirements, as well as securities industry best practices, require Jumpstart to maintain copies of practically all data, including communications and Offering materials, regardless of any termination of this Agreement. Notwithstanding the foregoing, information which is, or was, in the public domain (including having been published on the internet) is not subject to this section.

12. Notices: All notices given pursuant to this Agreement shall be in writing and sent via email to:
Jumpstart Securities, LLC
jonathan@jumpstartsecurities.com

13. Binding Arbitration, Applicable Law and Venue, Attorneys Fees: This Agreement is governed by, and will be interpreted and enforced in accordance with the regulations of the SEC and FINRA, and laws of the State of New York, without regard to principles of conflict of laws. Any claim or dispute arising under this Agreement may only be brought in arbitration, pursuant to the rules of the Financial Industry Regulatory Authority ("FINRA"), with venue in New York City, New York. Each of the parties hereby consents to this method of dispute resolution, as well as jurisdiction, and waives any right it may have to object to either the method, venue or jurisdiction for such claim or dispute. Any award an arbitrator makes will be final and binding on all parties and judgment on it may be entered in any court having jurisdiction. Furthermore, the prevailing party shall be entitled to recover damages plus reasonable attorney's fees .

14. Entire Agreement, Amendment, Severability and Force Majeure: This Agreement contains the entire agreement between Issuer and Jumpstart regarding this Agreement. If any provision of this Agreement is held invalid, the remainder of this Agreement shall continue in full force and effect. Furthermore, no party shall be responsible for any failure to perform due to acts beyond its reasonable control, including acts of regulators, acts of God, terrorism, shortage of supply, labor difficulties (including strikes), war, civil unrest, fire, floods, electrical outages, equipment or transmission failures, internet interruptions, vendor failures (including information technology providers), or other similar causes. This Agreement constitutes the entire agreement between the parties with respect to the subject matter hereof. This Agreement must be amended in writing.

15. Counterparts; Facsimile. This Agreement may be executed in counterparts, each of which will be deemed an original and all of which, taken together, will constitute one and the same instrument, binding on each signatory thereto. This Agreement may be executed by signatures, electronically or otherwise, delivered by facsimile or email, and a copy hereof that is properly executed and delivered by a party will be binding upon that party to the same extent as an original executed version hereof.

IN WITNESS WHEREOF, the parties have entered into this Agreement as of the date set forth above.

STATEMENT OF INCORPORATOR

IN LIEU OF ORGANIZATIONAL MEETING
FOR

Atlis Motor Vehicles Inc.
November 9, 2016

We, Harvard Business Services, Inc., the incorporator of Atlis Motor Vehicles Inc. --a Delaware Corporation--hereby adopt the following resolution pursuant to Section 108 of the General Corporation Law of Delaware:

Resolved: That the certificate of incorporation of Atlis Motor Vehicles Inc. was filed with the Secretary of State of Delaware on November 9, 2016.

Resolved: That on November 9, 2016 the following persons were appointed as the initial Directors of the Corporation until their successors are elected and qualify:
Mark A Hanchett

Resolved: That the bylaws included with this resolution are the initial bylaws approved by the incorporator.

Resolved: That the Secretary of the Company is hereby authorized and directed to execute a certificate of adoption of the bylaws or repeal the initial bylaws and create a custom set of bylaws to be adopted and approved by the directors.

Resolved: The powers of this incorporator are hereby terminated, and said incorporator shall no longer be considered a part of the body corporate of the above named corporation.

This resolution shall be filed in the minute book of the company.

HARVARD BUSINESS SERVICES, INC., Incorporator
By: Richard H. Bell, President

*** This document is not part of the public record. Keep it in a safe place. ***

BY-LAWS OF Atllis Motor Vehicles Inc.
A DELAWARE CORPORATION
ARTICLE I -REGISTERED AGENT AND REGISTERED OFFICE

Section 1. The registered office of the corporation in the State of Delaware shall be r6r92 Coastal Highway, in the city of Lewes, County of Sussex. The registered agent in charge thereof shall be Harvard Business Services, Inc.

Section 2. The corporation may also have offices at such other places as the Board of Directors may from time to time designate, in any State or County around the world.

ARTICLE II-SEAL

Section 1. The corporate seal shall have inscribed thereon the name of the corporation, the year; of its organization and the words "Corporate Seal, Delaware" or "Seal Delaware".

ARTICLE III -STOCKHOLDERS MEETINGS Section

1. Meetings of stockholders may be held at any place, either within or without the State of Delaware and the USA, as may be selected from time to time by the Board of Directors.

Section 2. Regular Meetings: Regular meetings of the stockholders shall be held without notice according to the schedule of the regular meetings of the stockholders which shall be distributed to each stockholder at the first meeting each year. The regular meetings shall be held at such place as shall be determined by the Board. Regular meetings shall not be required if deemed necessary by the Board.

Section 3. Election of Directors: Elections of the Directors of the corporation nee not be by written ballot, in accordance with the Delaware General Corporation Law (DGCL).

Section 4. Special Meetings: Special meetings of the stockholders may be called at any time by the president, or the Board of Directors, or stockholders entitled to cast at least one-fifth of the votes which all stockholders are entitled to cast at the particular meeting. Upon written request of any person or persons who have duly called a special meeting, it shall be the duty of the secretary to fix the date, place and time of the meeting, to be held not more than thirty days after the receipt of the request, and to give due notice thereof to all the persons entitled to vote at the meeting. Business at all special meetings shall be confined to the objects stated in the call and the matters germane thereto, unless all stockholders entitled to vote are present and consent. Written notice of a special meeting of stockholders stating the time and place of the meeting, and the object thereof, shall be given to each stockholder entitled to vote at least 5 days prior, unless a greater period of notice is required by statute in a particular case.

Section 5. Quorum: A majority of the outstanding shares of the corporation entitled to vote, represented in a person or by proxy, shall constitute a quorum at a meeting of stockholders. If less than a majority of the outstanding shares entitled to vote is represented at a meeting, a majority of the shares so represented, may adjourn the meeting at anytime without further notice. The stockholders present at a duly organized meeting may continue to transact business until adjournment, notwithstanding the withdrawal of enough stockholders to leave less than a quorum.

Section 6. Proxies: Each stockholder entitled to vote at a meeting of stockholders or to express consent or dissent to corporate action in writing without a meeting may authorize another person or persons to act for him by proxy, but no such proxy shall be voted or acted upon after one year from its date, unless the proxy provides for a longer period, as allowable by law. A duly executed proxy shall be irrevocable if it states that it is irrevocable and if, and only as long as, it is coupled with an interest sufficient in law to support an irrevocable power. A proxy may be irrevocable regardless of whether the interest with which it is coupled is an interest in the stock itself or an interest in the corporation generally. All proxies shall be filed with the Secretary of the meeting before being voted upon.

Section 7. Notice of Meetings: Whenever stockholders are required or permitted to take any action at a meeting, a written notice of the meeting shall be given which shall state the place, date and hour of the meeting, and, in the case of a special

meeting, the purpose or purposes for which the meeting is called. Unless otherwise provided by law, written notice of any meeting shall be given not less than ten nor more than sixty days before the date of the meeting to each stockholder entitled to vote at such meeting.

Section 8. Consent In Lieu of Meetings: Any action required to be taken at any annual or special meeting of stockholders of a corporation, or any action which may be taken at any annual or special meeting of such stockholders, may be taken without a meeting, without prior notice and without a vote, if a consent in writing, setting forth the action so taken, shall be signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted. Prompt notice of the taking of the corporate action without a meeting by less than unanimous written consent shall be given to those stockholders who have not consented in writing.

Section 9. List of Stockholders: The officer who has charge of the stock ledger of the corporation shall prepare and make, at least ten days before every meeting arranged in alphabetical order, and showing the address of each stockholder and the number of shares registered in the name of each stockholder. No share of stock of which any installment is due and unpaid shall be voted at any meeting. The list shall not be open to the examination of any stockholder, for any purpose, except as required by Delaware law. The list shall be kept either at a place within the city where the meeting is to be held, which place shall be specified in the notice of the meeting, or, if not so specified, at the place where the meeting is to be held. The list shall be produced and kept at the time and place of the meeting during the whole time thereof, and may be inspected by any stockholder who is present.

ARTICLE IV - DIRECTORS

Section 1. The business and affairs of this corporation shall be managed by its Board of Directors. Each director shall be elected for a term of one year, and until his successor shall qualify or until his earlier resignation or removal.

Section 2. Regular Meetings: Regular meetings of the Board of Directors shall be held without notice according to the schedule of the regular meetings of the Board of Directors which shall be distributed to each Board member at the first meeting each year. The regular meetings shall be held at such place as shall be determined by the Board. Regular meetings, in excess of the one Annual meeting (Alt. III Sec. 2) shall not be required if deemed necessary by the Board.

Section 3. Special Meetings: Special meetings of the Board of Directors may be called by the Chairman of the Board of Directors on 5 days notice to all directors, either personally or by mail, courier service, E-Mail or telecopy; special meetings may be called by the President or Secretary in like manner and on like notice by written request to the Chairman of the Board of Directors.

Section 4. Quorum: A majority of the total number of directors shall constitute a quorum of any regular or special meetings of the Directors for the transaction of business.

Section 5. Consent In Lieu of Meeting: Any action required or permitted to be taken at any meeting of the Board of Directors, or of any committee thereof, may be taken without a meeting if all members of the Board or committee, as the case may be, consent thereto in writing, and the writing or writings are filed with the minutes of proceedings of the Board or committee. The Board of Directors may hold its meetings, and have an office or offices anywhere in the world, within or outside of the state of Delaware.

Section 6. Conference Telephone: Directors may participate in a meeting of the Board, of a committee of the Board or of the stockholders, by means of voice conference telephone or video conference telephone or similar communications equipment by means of which all persons participating in the meeting can hear each other. Participation in this manner shall constitute presence in person at such meeting.

Section 7. Compensation: Directors as such shall not receive any stated salary for their services, but by resolution of the Board,

a fixed sum per meeting and any expenses of attendance, may be allowed for attendance at each regular or special meeting of the Board. Nothing herein contained shall be construed to preclude any director from serving the corporation in any other capacity and receiving compensation therefore.

stockholder. The demand under oath shall be directed to the corporation at its registered office or at its principal place of business.

ARTICLE VIII-STOCK CERTIFICATES, DIVIDENDS, ETC.

Section 1. The stock certificates of the corporation shall be numbered and registered in the Stock Transfer Ledger and transfer books of the corporation as they are issued. They shall bear the corporate seal and shall be signed by the President and the Secretary.

Section 2. Transfers: Transfers of the shares shall be made on the books of the corporation upon surrender of the certificates therefore, endorsed by the person named in the certificate or by attorney, lawfully constituted in writing. No transfer shall be made which is inconsistent with applicable law.

Section 3. Lost Certificate: The corporation may issue a new stock certificate in place of any certificate theretofore signed by it, alleged to have been lost, stolen, or destroyed.

Section 4. Record Date: In order that the corporation may determine stockholders entitled to notice of or to vote at any meeting of stockholders on any adjournment thereof, or to express consent to corporate action in writing without a meeting, or entitled to receive payment of any dividend or other distribution or allotment of any rights, or entitled for the purpose of any other lawful action, the Board of Directors may fix, in advance, a record date, which shall not be more than sixty days prior to any other action.

Info record date is fixed:

(a)The record date for determining stockholders entitled to notice of or to vote at a meeting of stockholders shall be at the close of business on the day next preceding the day on which notice is given, or, if the notice is waived, at the close of the business on the day next preceding the day on which the meeting is held.

(b)The record date for which determining stockholders entitled to express consent to corporate action in writing without a meeting, when no prior action by the Board of Directors is necessary, shall be the day on which the first written consent is expressed.

(c)The record date for determining stockholders for any other purpose shall be at the close of business on the day on which the Board of Directors adopts the resolution relating thereto.

(d)A determination of stockholders of record entitled to notice of or vote at a meeting of stockholders shall apply to any adjournment of the meeting: provided, however, that the Board of Directors may fix a new record date for the adjourned meeting.

Section 5. Dividends: The Board of Directors may declare and pay dividends upon the outstanding shares of the corporation from time to time and to such extent as they deem advisable, in the manner and upon the terms and conditions provided by statute and the Certificate of Incorporation.

Section 6. Reserves: Before payment of any dividend there may be set aside out of the net profits of the corporation such sum or sums as the directors, from time to time, in their absolute discretion, think proper as a reserve fund to meet contingencies, or for equalizing dividends, or for repairing or maintaining the property of the corporation, or for such other purpose as the directors shall think conducive to the interests of the corporation, and the directors may abolish any such reserve in the manner in which it was created.

ARTICLE IX-MISCELLANEOUS PROVISIONS

Section 1. Checks: All checks or demands for money and notes of the corporation shall be signed by such officer or officers as the Board of Directors may from time to time designate.

Section 2. Fiscal Year: The fiscal year shall begin on the first day of January of every year, unless this section is amended according to Delaware Law.

Section 3. Notice: Whenever written notice is required to be given to any person, it may be given to such a person, either

personally or by sending a copy thereof through the mail, or by telecopy (FAX), or by telegram, charges prepaid, to his address appearing on the books of the corporation of the corporation, or supplied by him to the corporation to have been given to the person entitled thereto when deposited in the United States mail or with a telegraph office for transmission to such person. Such notice shall specify the place, day and time of meeting and, in the case of a special meeting of stockholders, the general nature of business to be transacted.

Section 4. Waiver of Notice: Whenever any written notice is required by statute, or by Certificate or the by-laws of this corporation a waiver thereof in writing, signed by the person or persons entitled to such a notice, whether before or after the time stated therein, shall be deemed equivalent to the giving of such notice. Except in the case of a special meeting of stockholders, neither the business to be transacted nor the purpose of the meeting need be specified in the waiver of notice of such meeting. Attendance of a person either in person or by proxy at any meeting shall constitute a waiver of notice of such meeting, except where a person attends a meeting for the express purpose of objecting to the transaction of any business because the meeting was unlawfully convened.

Section 5. Disallowed Compensation: Any payments made to an officer or employee of the corporation such as a salary, commission, bonus, interest, rent, travel or entertainment expense incurred by him, which shall be disallowed in whole or in part as a deductible expense by the Internal Revenue Service, shall be reimbursed by such officer or employee to the corporation to the full extent of such disallowance. It shall be the duty of the directors, as a Board, to enforce payment of each amount disallowed in lieu of payment by the officer or employee, subject to the determination of the directors, proportionate amounts may be withheld from his future compensation payments until the amount owed to the corporation has been recovered.

Section 6. Resignations: Any director or other officer may resign at any time, such resignation to be in writing, and to take effect from the time of its receipt by the corporation, unless some time to be fixed in the resignation and then from that date. The acceptance of a resignation shall not be required to make it effective.

ARTICLE X -LIABILITY

Section 1. Stockholder liability is limited to the stock held in the corporation. Section 2. No director shall be personally liable to the Corporation or its stockholders for monetary damages for any breach of fiduciary duty by such director as a director. Notwithstanding the foregoing sentence, a director shall be liable to the extent provided by applicable law, (i) for breach of the director's duty of loyalty to the Corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) pursuant to Section 174 of the Delaware General Corporation Law or (iv) for any transaction from which the director derived an improper personal benefit. No amendment to or repeal of this Article Eighth shall apply to or have any effect on the liability or alleged liability of any director of the Corporation for or with respect to any acts or omissions of such director occurring prior to such amendment.

ARTICLE XI -AMENDMENTS

Section 1. These bylaws may be amended or repealed by the vote of stockholders entitled to cast at least a majority of the votes which all stockholders are entitled to cast thereon, at any regular or special meeting of the stockholders, duly convened after notice to the stockholders of that purpose.

CERTIFICATE OF AMENDMENT OF THE BYLAWS OF Atlls Motor Vehicles
The undersigned, who is the [duly elected and/or acting]
Secretary of Atlls Motor Vehicles, a Delaware corporation (the
"Company"), does hereby certify, as follows:

1. Section 5.1 of Article V of the Bylaws of the Company was
amended, by unanimous written consent of the Board, on December
12, 2017, to read in its entirety, as follows:

"Section Certificate of Shares. Shares of the corporation's
stock may be certified or uncertified, as provided under
Delaware law, and shall be entered in the books of the
corporation and registered as they are issued. Certificates
representing shares of the corporation's stock shall be signed
in the name of the corporation by the chairman of the board or
vice chairman of the board or the chief executive officer or
president or vice president and by the chief financial officer
or an assistant treasurer or the secretary or any assistant
secretary, certifying the number of shares and the class or
series of shares owned by the shareholder Any or all of the
signatures on the certificate may be facsimile. In the event
that any officer, transfer agent, or registrar who has signed or
whose facsimile signature has been placed on the certificate
shall have ceased to be that officer, transfer agent, or
registrar before that certificate is issued, it may be issued by
the corporation with the same effect as if that person were an
officer, transfer agent, or registrar at the date of Issue.
Within a reasonable time after the issuance or transfer of
uncertified shares, the corporation shall send to the registered
owner thereof a written notice that shall set forth the name of
the corporation, that the corporation is organized under the
laws of the State of Delaware, the name of the shareholder, the
number and class (and the designation of the series, if any) of
the shares represented, and any restrictions on the transfer or
registration of such shares imposed by the corporation's
certificate of incorporation, these by-laws, any agreement among
shareholders or any agreement between shareholders and the
corporation."

2. Section 5.1 of Article V of the Bylaws of the Company was
amended, by unanimous written consent of the Board, on DECEMBER
12, 2017, to read in its entirety, as follows:

"Section 5.2. Lost Certificates. Except as provided In this
Section 5.2, no new certificates for shares or uncertified
shares shall be issued to replace an old certificate unless the
latter Is surrendered to the corporation and cancelled at the
same time. The board of directors may, in case any share
certificate or certificate for any other security is lost,
stolen, or destroyed, authorize the issuance of a replacement
certificate of stock, or uncertified shares in place of a
certificate previously issued by it on such terms and conditions
as the board may require, including provision for
indemnification of the corporation secured by a bond or other
adequate security sufficient to protect the corporation against
any claim that may be made against it, including any expense or
liability on account of the alleged loss, theft, or destruction
of the certificate or the issuance of the replacement
certificate or uncertified shares."

3. The foregoing amendments to the Bylaws of the corporation
have not been modified, amended, rescinded, or revoked and
remain in full force and effect on the date hereof
The undersigned has executed this Certificate as of December 12,
2017

UNANIMOUS WRITTEN CONSENT OF THE BOARD OF DIRECTORS
OF

Atlls Motor Vehicles a Delaware Corporation

The undersigned, being all of the directors of Atlls Motor
Vehicles a Delaware corporation (the "Company"), pursuant to
Del. Code Ann . Title 8 § 141 hereby consent, approve and
adopt the following resolutions as if duly adopted at a special
meeting of the Board of Directors held for this purpose
WHEREAS, it has been proposed that the Company sell and offer up
to \$1,035,714 in Common Stock (the "Securities") through
[concurrent offerings under Regulation Crowdfunding and
Regulation D (the "Concurrent Offerings")] OR [an offering under
Regulation Crowdfunding (the "Offering")] under the Securities
Act of 1933, as amended (the "Securities Act");
Regulation Crowdfunding Offering

WHEREAS, it has been proposed that the Company sell and offer up to \$1,035,714 in Securities through an offering under Regulation Crowdfunding under the Securities Act, (the "Crowdfunding Offering"), pursuant to the terms of a subscription agreement by and among the Company and the investors party thereto (the "Subscription Agreement"), substantially in the form attached hereto as Exhibit A; and an Offering Memorandum on Form C that has been reviewed by the Board (the "Memorandum");

WHEREAS, the Board has been presented with and reviewed the Memorandum, and deems it to be in the best interests of the Company to authorize and approve the Memorandum and for the Company to engage in the Crowdfunding Offering;

WHEREAS, to comply with Regulation Crowdfunding, the Company must file a Form C with the Securities and Exchange Commission (the "SEC"), use an online portal to communicate the Crowdfunding Offering, have an independent certified public accountant conduct a financial review and enter into agreements with a transfer agent and an escrow agent;

NOW, THEREFORE BE IT RESOLVED, that the directors hereby authorize and approve the Memorandum and the Crowdfunding Offering, and the issuance of the Securities pursuant to the terms thereof;

Regulation D Offering

WHEREAS, it has been proposed that the Company sell and offer up to \$1,035,714 in Securities through an offering under Regulation D under the Securities Act (the "Regulation D Offering"), pursuant to the terms of a [subscription/purchase] agreement by and among the Company and the investors party thereto (the "Regulation D Agreement"), substantially in the form attached hereto as Exhibit B;

NOW, THEREFORE BE IT RESOLVED, that the directors hereby authorize and approve the Regulation D Offering, and the issuance of Regulation D Securities;

RESOLVED, that the form, terms and provisions of the Regulation D Agreement be, and they hereby are, in all respects, approved and adopted, and that the transactions contemplated by the Regulation D Agreement, including the issuance of the Regulation D Securities, be, and they hereby are, in all respects approved, and, further, that the Authorized Officers be, and each of them hereby is, authorized and directed in the name and on behalf of the Company, and under its corporate seal or otherwise, to execute and deliver the Regulation D Agreement in substantially such form, with such changes therein as the Authorized Officer executing the same shall, by the execution thereof, approve, and cause the Company to perform its obligations thereunder

Subscription Agreement
RESOLVED, that the form, terms and provisions of the Subscription Agreement by and among the Company and the investors party thereto, a copy of which has been submitted in substantially final form to each director of the Company and is attached hereto as Exhibit A, be, and they hereby are, in all respects, approved and adopted, and that the transactions contemplated by the Subscription Agreement, including the issuance of the Securities for a price of \$0.29 per Security payable as set forth in the Subscription Agreement, be, and they hereby are, in all respects approved, and, further, that the officers of the Company (the "Authorized Officers") be, and each of them hereby is, authorized and directed in the name and on behalf of the Company, and under its corporate seal or otherwise, to execute and deliver the Subscription Agreement in substantially such form, with such changes therein as the Authorized Officer executing the same shall, by the execution thereof, approve, and cause the Company to perform its obligations thereunder

Uncertificated Securities

RESOLVED, that the Securities shall be uncertificated and the Authorized Officers shall record the investor name, address and number of Securities held by each purchaser on the Company's books and records (including books and records kept in digital form online). In the event a holder requests a written record of their investment within a reasonable time, the Authorized Officers are authorized to prepare and deliver a written notice setting forth the holder's name, the amount of Securities held and any restrictions on the transfer or registration of said Securities imposed by the Certificate of incorporation, the Company's bylaws and the Subscription Agreement or by law or regulation.

Amendments to the Company's Bylaws

WHEREAS, Section 5.1 of the Bylaws of the Company as adopted on December 12 provide that shares of the Company shall be in

certificated form and the issuance of certificates is not contemplated in the [Offering] [Concurrent Offerings]; RESOLVED, that the amendments to the Company's Bylaws set out in the Certificate of Amendment attached hereto as Exhibit C, be, and hereby are, authorized and that the Authorized Officers are authorized to effect such amendment.

Filing of the Form C

RESOLVED, that the Authorized Officers are, and each of them acting singly is, authorized, in the name and on behalf of the Company, to cause to be compiled and filed with the SEC such Form C in the form required.

Online Portal

RESOLVED, that Start Engine Capital, LLC ("Start Engine") shall be engaged to provide the online portal required for a Crowdfunding Offering and that the Authorized Officers be, and each of them hereby is, authorized and directed in the name and on behalf of the Company, and under its corporate seal or otherwise, to enter into an agreement with Start Engine in connection with the Crowdfunding Offering and cause the Company to perform its obligations thereunder

Due Diligence

RESOLVED, that CrowdCheck, Inc. shall be retained to assist in the Form C preparation process and to conduct due diligence on the Memorandum, campaign page and other disclosures required for the Crowdfunding Offering and that the Authorized Officers be, and each of them hereby is, authorized and directed in the name and on behalf of the Company, and under its corporate seal or otherwise, to enter into an agreement with CrowdCheck, Inc. in connection with the Crowdfunding Offering and cause the Company to perform its obligations thereunder

Financial Review

RESOLVED, that Jason M Tyra CPA, PLLC ("CPA") shall be retained to conduct the required financial review of the Company's 2016 and 2017 financial statements and that the Authorized Officers be, and each of them hereby is, authorized and directed in the name and on behalf of the Company, and under its corporate seal or otherwise, to enter into an agreement with CPA in connection with Crowdfunding Offering and cause the Company to perform its obligations thereunder

Escrow Agent

RESOLVED, that [Prime Trust] shall be appointed escrow agent and that the Authorized Officers be, and each of them hereby is, authorized and directed in the name and on behalf of the Company, and under its corporate seal or otherwise, to enter into an agreement with said escrow agent in connection with the Crowdfunding Offering and cause the Company to perform its obligations thereunder

Transfer Agent

RESOLVED, that [Fund America Stock Transfer, LLC] shall be appointed transfer agent and that the Authorized Officers be, and each of them hereby is, authorized and directed in the name and on behalf of the Company, and under its corporate seal or otherwise, to enter into an agreement with said transfer agent in connection with the Crowdfunding Offering and cause the Company to perform its obligations thereunder

General Authorization

RESOLVED FURTHER, that the Authorized Officers of the Company are hereby severally authorized and directed to take, or cause to be taken, all actions in the name and on behalf of the Company, that such officers determine are necessary or advisable to consummate the transactions contemplated by, or otherwise to effect the purposes of, the foregoing resolutions, including, but not limited to, signing, certifying to, verifying, acknowledging, delivering, accepting, filing and recording all agreements, instruments and documents related to any of the resolutions.

RESOLVED FURTHER that all acts of the officers of the Company taken before the date hereof in connection with matters referred to in these resolutions are hereby ratified, approved and adopted as acts of the Company.

IN WITNESS WHEREOF, the undersigned have executed this unanimous written consent effective as of December 12, 2017

EXHIBIT A SUBSCRIPTION AGREEMENT

EXHIBIT C

CERTIFICATE OF AMENDMENT OF THE BYLAWS OF Atlis Motor Vehicles

The undersigned, who is the [duly elected and/or acting] Secretary of Atlis Motor Vehicles, a Delaware corporation (the "Company"), does hereby certify, as follows:

1. Section 5.1 of Article V of the Bylaws of the Company was amended, by unanimous written consent of the Board, on December 12, 2017, to read in its entirety, as follows:

"Section Certificate of Shares. Shares of the corporation's stock may be certified or uncertified, as provided under Delaware law, and shall be entered in the books of the corporation and registered as they are issued. Certificates representing shares of the corporation's stock shall be signed in the name of the corporation by the chairman of the board or vice chairman of the board or the chief executive officer or president or vice president and by the chief financial officer or an assistant treasurer or the secretary or any assistant secretary, certifying the number of shares and the class or series of shares owned by the shareholder Any or all of the signatures on the certificate may be facsimile. In the event that any officer, transfer agent, or registrar who has signed or whose facsimile signature has been placed on the certificate shall have ceased to be that officer, transfer agent, or registrar before that certificate is issued, it may be issued by the corporation with the same effect as if that person were an officer, transfer agent, or registrar at the date of issue. Within a reasonable time after the issuance or transfer of uncertified shares, the corporation shall send to the registered owner thereof a written notice that shall set forth the name of the corporation, that the corporation is organized under the laws of the State of Delaware, the name of the shareholder, the number and class (and the designation of the series, if any) of the shares represented, and any restrictions on the transfer or registration of such shares imposed by the corporation's certificate of incorporation, these by-laws, any agreement among shareholders or any agreement between shareholders and the corporation."

2. Section 5.1 of Article V of the Bylaws of the Company was amended, by unanimous written consent of the Board, on DECEMBER 12, 2017, to read in its entirety, as follows:

"Section 5.2. Lost Certificates. Except as provided in this Section 5.2, no new certificates for shares or uncertified shares shall be issued to replace an old certificate unless the latter is surrendered to the corporation and cancelled at the same time. The board of directors may, in case any share certificate or certificate for any other security is lost, stolen, or destroyed, authorize the issuance of a replacement certificate of stock, or uncertified shares in place of a certificate previously issued by it on such terms and conditions as the board may require, including provision for indemnification of the corporation secured by a bond or other adequate security sufficient to protect the corporation against any claim that may be made against it, including any expense or liability on account of the alleged loss, theft, or destruction of the certificate or the issuance of the replacement certificate or uncertified shares."

3. The foregoing amendments to the Bylaws of the Corporation have not been modified, amended, rescinded, or revoked and remain in full force and effect on the date hereof
The undersigned has executed as of December 12, 2017

Mark Hanchett Chief Executive Officer and Director

BOARD RESOLUTION

Whereas Atlis Motor Vehicles, Inc shall continue to operate with its research and development of an electric motor vehicle; Whereas authority to create separate and distinct classes of common stock is necessary for Atlis Motor Vehicles, Inc to continue raising funds for further operations while maintaining voting control;

NOW THEREFORE, BE IT RESOLVED that the Board of Directors of Atlis Motor Vehicles, Inc hereby authorize the creation of the following classes of common stock

Class A

Class A common stock has 1 vote per share. This Class A classification shall be applied to all issued common stock unless noted otherwise.

Class B

Class B common stock has no voting power. This Class B classification is reserved for future issues of common stock.

Class C

Class C common stock is Non-participating Preferred Common Stock. This Class C common stock has 1 vote per share. Class C stock receives non-participating preferred liquidation preference. Upon a sale or transfer of Class C stock, Class C stock shall be converted to Class A stock. Holder of Class C stock has the right to a board seat.

Class D

Class D classification of stock has 10 votes per share. This Class D classification may be used for future issues of common stock. Upon termination or resignation of employment all Class D stock vested to employee shall convert to Class A stock.

Approved: Mark Hanchett / Date 3-6-2020

Chairman, Director

CERTIFICATION

I, the undersigned, do hereby certify:

1. That I am the duly elected and acting Secretary of Atlis Motor Vehicles, Inc; and
2. That the foregoing constitutes a Resolution of the Board of said corporation, as duly adopted at a meeting of the Board of Directors thereof, held on the 6 day of March 2020.

IN WITNESS WHEREOF, I have hereunto subscribed by name and affixed the seal of said corporation, this 6 day of March, 2020.

Corporate Secretary,
Atlis Motor Vehicles, Inc

ATLIS MOTOR VEHICLES, INC.
Audited Financial Statements For The Years
Ended December 31, 2019 and 2018
Independent Auditor's Report

To Management
Atlis Motor Vehicles, Inc.
Mesa, AZ

We have audited the accompanying balance sheet of Atlis Motor Vehicles, Inc. as of April 21, 2020, and the related statements of income, retained earnings, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Atlis Motor Vehicles, Inc. as of April 21, 2020, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Going Concern
The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note B, certain conditions raise an uncertainty about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note B. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our conclusion is not modified with respect to this manner.

Cash at Beginning of Period	(1,500)	1,500
Net Increase (Decrease) In Cash	6,571	(3,001)
Cash at End of Period	\$ 5,074	\$ (1,500)

ATLIS MOTOR VEHICLES, INC.
Audit Notes for years ending 2018 and 2019

NOTE A- ORGANIZATION AND NATURE OF ACTIVITIES

Atlis Motor Vehicles, Inc. (the Company) is a corporation organized under the laws of Delaware and domiciled in Arizona. The Company intends to develop and manufacture electric vehicles and other energy sustainable products.

NOTE B- GOING CONCERN MATTERS

The financial statements have been prepared on the going concern basis, which assumes that the Company will continue in operation for the foreseeable future. However, management has identified the following conditions and events that created an uncertainty about the ability of the Company to continue as a going concern. The company sustained net losses of \$470,378 in 2019 and \$595,862 in and had no cash available as of December 31, 2018.

The following describes management's plans that are intended to mitigate the conditions and events that raise substantial doubt about the Company's ability to continue as a going concern. The Company plans to raise additional funds to meet obligations and further operations through a Reg CF campaign. The Company's ability to meet its obligations as they become due is dependent upon the success of management's plans, as described above.

These conditions and events create an uncertainty about the ability of the Company to continue as a going concern through April 21, 2021 (one year after the date that the financial statements are available to be issued). The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

NOTE C- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Significant Risks and Uncertainties

The Company is subject to customary risks and uncertainties associated with development of new technology including, but not limited to, the need for protection of proprietary technology, dependence on key personnel, costs of services provided by third parties, passing regulatory testing, meeting manufacturing and environmental requirements, the need to obtain additional financing, and limited operating history.

The Company currently has no developed products for commercialization and there can be no assurance that the

Company's research and development will be successfully commercialized. Developing and commercializing a product requires significant capital, and based on the current operating plan, the Company expects to continue to incur operating losses as well as cash outflows from operations in the near term.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances, and highly liquid investments with maturities of three months or less when purchased.

Stockholders Equity

During 2018, the company issued 14,782,630 shares of common stock at Par Value \$0.0001.

Fixed Assets

The Company capitalizes assets with an expected useful life of one year or more, and an original purchase price of \$1,000 or more. Depreciation is calculated on a straight-line basis over management's estimate of each asset's useful life.

Revenue

Revenue is recognized when control of the promised goods or services is transferred to customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services.

Current revenue is earned by the sale of small merchandise.

Advertising

The Company records advertising expenses in the year incurred.

Accrued Taxes Payable

During 2018 the company accrued \$40,831 in payroll taxes payable.

Rent

The company leases a storage space on a month-to-month basis.

Equity Based Compensation

The Company accounts for stock options issued to employees under ASC 718 (Stock Compensation). Under ASC 718, share-based compensation cost to employees is measured at the grant date, based on the estimated fair value of the award, and is recognized as an item of expense ratably over the employee's requisite vesting period. The Company has elected early adoption of ASU 2018-07, which permits measurement of stock options at their intrinsic value, instead of their fair value. An option's intrinsic value is defined as the amount by which the fair value of the underlying stock exceeds the exercise price of an option. In certain cases, this means that option compensation granted by the Company may have an intrinsic value of \$0.

The Company measures compensation expense for its non-employee stock-based compensation under ASC 505 (Equity). The fair value of the option issued or committed to be issued is used to measure the transaction, as this is more reliable than the fair value of the services received. The fair value is measured at the value of the Company's common stock on the date that the commitment for performance by the counterparty has been reached or the counterparty's performance is complete. The fair value of the equity instrument is charged directly to expense and credited to additional paid-in capital.

Income Taxes

The Company applies ASC 740 Income Taxes (ASC 740). Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial statement reported amounts at each period end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The provision for income taxes represents the tax expense for the period, if any and the change during the period in deferred tax assets and liabilities. ASC 740 also provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position is recognized only if it is more likely than not that the position is sustainable upon examination by the relevant taxing authority based on its technical merit.

The Company is subject to tax filing requirements as a corporation in the federal jurisdiction of the United States. The Company sustained net operating losses during fiscal years 2019 and 2018. Net operating losses will be carried forward to reduce taxable income in future years. Due to managements uncertainty as to the timing and valuation of any benefits associated with the net operating loss carryforwards, the Company has elected to recognize an allowance to account for them in the financial statements, but has fully reserved it. Under current law, net operating losses may be carried forward indefinitely.

The Company is subject to franchise and income tax filing requirements in the State of Delaware and Arizona.

Recently Adopted Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board, or FASB, or other standard setting bodies and adopted by the Company as of the specified effective date. Unless otherwise discussed, the Company believes that the impact of recently issued standards that are not yet effective will not have a material impact on its financial position or results of operations upon adoption.

In November 2015, the FASB issued ASU (Accounting Standards Update) 2015-17, Balance Sheet Classification of Deferred Taxes, or ASU 2015-17. The guidance requires that all deferred tax assets and liabilities, along with any related valuation allowance, be classified as noncurrent on the balance sheet. For all entities other than public business entities, the guidance becomes effective for financial statements issued for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Early adoption is permitted for all entities as of the beginning of an interim or annual reporting period. The adoption of ASU 2015-17 had no material impact on the Companys financial statements and related disclosures.

In November 2016, the FASB issued ASU 2016-18, Statement of Cash Flows (Topic 230), Restricted Cash, or ASU 2016-18. The amendments of ASU 2016-18 were issued to address the diversity in classification and presentation of changes in restricted cash and restricted cash equivalents on the statement of cash flows which is currently not addressed under Topic 230. ASU 2016-18 would require an entity to include amounts generally described as restricted cash and restricted cash equivalents with cash and cash equivalents when reconciling the beginning of period and end of period total amounts on the statement of cash flows. This guidance is effective for annual reporting periods, and interim periods within those years, beginning after December 15, 2018 for non-public entities. Early adoption is permitted, and the standard must be applied retrospectively. The adoption of ASU 2016-18 had no material impact on the Companys financial statements and related disclosures.

In May 2014, the FASB issued ASU, 2014-09 Revenue from Contracts with Customers (Topic 606), or ASU 2014-09, and further updated through ASU 2016-12, or ASU 2016-12, which amends the existing accounting standards for revenue recognition. ASU 2014-09 is

based on principles that govern the recognition of revenue at an amount to which an entity expects to be entitled to when products are transferred to customers. This guidance is effective for annual reporting periods, and interim periods within those years, beginning December 15, 2018 for non-public entities. The new revenue standard may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of adoption. The adoption of ASU 2014-09 had no material impact on the Companys financial statements and related disclosures.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), or ASU 2016-02, which supersedes the guidance in ASC 840, Leases. The new standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. This guidance is effective for annual reporting periods beginning after December 15, 2019 for non-public entities. The adoption of ASU 2016-02 had no material impact on the Companys financial statements and related disclosures.

In March 2016, the FASB issued ASU 2016-09, Improvements to Employee Share-based Payment Accounting, or ASU 2016-09. ASU 2016-09 simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. Some of the areas of simplification apply only to non-public companies. This guidance was effective on December 31, 2016 for public entities. For entities other than public business entities, the amendments are effective for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Early adoption is permitted for an entity in any interim or annual period for which financial statements have not been issued or made available for issuance. An entity that elects early adoption must adopt all amendments in the same period. The adoption of ASU 2016-09 had no material impact on the Companys financial statements and related disclosures.

In May 2017, the FASB issued ASU 2017-09, Compensation Stock Compensation (Topic 718): Scope of Modification Accounting, or ASU 2017-09, which clarifies when to account for a change to the terms or conditions of a share-based payment award as a modification. Under the new guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award (as equity or liability) changes as a result of the change in terms or conditions. This guidance is effective for annual reporting periods, and interim periods within those years, beginning after December 15, 2017, for both public entities and non-public entities. Early adoption is permitted. The adoption of ASU 2017-09 had no material impact on the Companys financial statements and related disclosures.

NOTE D- EQUITY

Under the Companys original articles of incorporation currently in effect, the Company authorized 17,857,143 shares of \$0.0001 par value Common Stock.

As of December 31, 2019, the number of common shares issued and outstanding was 14,782,630.

NOTE E- DEBT

In 2017, the company issued a note to a related party in exchange for cash for the purpose of funding continuing operations (the Related Party Note Payable). The note does not accrue interest and is payable at a future date to be determined by management. During 2018 and 2017, the Company capitalized no

interest related to the note.

In 2018, the company issued a loan payable in exchange for cash for the purpose of funding continuing operations (the Note Payable). The note incurs an annual interest rate of 35.6% on any remaining monthly balance. This interest is paid each month on the remaining loan balance. Minimum monthly payments are equal to \$4,872.

NOTE F- FAIR VALUE MEASUREMENTS

Fair value is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants based on the highest and best use of the asset or liability. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. The Company uses valuation techniques to measure fair value that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized as follows:

Level 1 - Observable inputs, such as quoted prices for identical assets or liabilities in active markets;
Level 2 - Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly, such as quoted prices for similar assets or liabilities, or market-corroborated inputs; and
Level 3 - Unobservable inputs for which there is little or no market data which require the reporting entity to develop its own assumptions about how market participants would price the assets or liabilities.

The valuation techniques that may be used to measure fair value are as follows:

Market approach - Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.
Income approach - Uses valuation techniques to convert future amounts to a single present amount based on current market expectations about those future amounts, including present value techniques, option-pricing models, and excess earnings method.
Cost approach - Based on the amount that currently would be required to replace the service capacity of an asset (replacement cost).

NOTE G- CONCENTRATIONS OF RISK

Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents. The Company places its cash and cash equivalents with a limited number of high-quality financial institutions and at times may exceed the amount of insurance provided on such deposits.

NOTE H- SUBSEQUENT EVENTS

Management considered events subsequent to the end of the period but before April 21, 2021, the date that the financial statements were available to be issued.
